

Budget will Focus on Growth and Address Inflation Concerns: FM

Sitharaman says costly energy and fertiliser remain a challenge in the short to medium term

Our Bureau
 New Delhi: Finance minister Nirmala Sitharaman said the upcoming Union Budget 2023-24 will have to be carefully structured to sustain the country's growth momentum even as it addresses inflation concerns.
 At a fire-side chat with eminent economist Eshwar Prasad at the Brookings Institution in Washington DC, Sitharaman also asserted India will clock about 7% growth in the current fiscal despite slowing global economy and external uncertainty.
 She is in the US to attend the annual meeting of the International Monetary Fund and the World Bank.
 Talking about reports of many India startups moving base to other countries, the finance minister said the government is ready to talk to those contemplating moving overseas and addressing issues to help them stay in India.
 "Specifics (of the next budget) may be difficult at this stage because it's a bit too early. But broadly, the growth priorities will be kept absolutely on the top," Sitharaman said, adding that inflation concerns will also have to be addressed.

Clear Targets
What FM Says
 Despite global slowdown, India to grow at 7% this fiscal

Rising energy and fertiliser prices remain a challenge

Measured and targeted fiscal incentives helped better inflation mgmt

High cost of natural gas may threaten transition to clean energy

"But then how would you manage growth would be the natural question... It will have to again be a very carefully structured budget in which growth momentum will have to be sustained".
 Discussions on the next annual budget, scheduled to be presented in February 2023, started this week.
 The International Monetary Fund (IMF) on Tuesday cut India's growth forecast for FY23 to 6.8% from an earlier projection of 7.4%.
 Sitharaman said the economy is likely

US Treasury Secy Arrives Next Mth

Washington: US treasury secretary Janet Yellen has announced that she will travel to India next month to attend ninth edition of US-India Economic and Financial Partnership meeting, as she pitched for strong ties between the two nations to address the world's most important economic challenges. - PTI

remain a challenge in the short to medium term and they are hitting the country, Sitharaman said.
 She said the high cost of natural gas may threaten the transition to clean energy and many countries including India will have to go back to coal to meet energy demands.
 "Fertiliser prices, energy, not just the price but also the availability, the risks to sourcing of energy... these are challenges which are not in the medium term, not in the long term but also in the short term," Sitharaman said.

Indian Economy on Firm Ground, but Severe Conditions Could Shake Outlook, says S&P

Our Bureau
 New Delhi: India is facing a cacophony of factors that may shake its sovereign credit metrics, though the country's strong economic growth and sound external balance sheet provide a solid buffer against global market turbulence, S&P Global Ratings said on Wednesday.
 The ratings agency sees a 7.3% "sturdy growth supported by solid underlying momentum" in FY23, riding a strong domestic economy.
 "High-frequency indicators, including purchasing manager's indices in services and manufacturing, automobile sales, and labour market surveys, suggest that India has so far maintained its momentum against the advent of external difficulties," S&P said in an FAQ "Can India Sovereign Ratings Withstand The Global Sputter?"
 India's banking sector has shown solid recovery prospects and both private consumption and investment trends remain favourable, it said.
 The country's BBB- rating with a 'stable' outlook could, however, face pressure under "more severe conditions" in FY23, riding a strong domestic economy.
 S&P's FY23 growth forecast is higher than the Reserve Bank of India's 7% and half a percentage point more than the International Monetary Fund's downward revised 6.8%.
 A deeper global economic slowdown currently anticipated could have an adverse impact on India's economic performance in fiscals 2023 and 2024, S&P said, flagging multiple risks.
 These include tighter global monetary conditions, prolonged high inflation, and poor investment or consumer sentiment both at home and abroad.
 Foreign exchange reserves have dropped to about \$533 billion from a peak of about \$634 billion in 2021, in part because of the growing current account deficit that S&P says will jump to 3% of GDP in the current fiscal year from 1.6% in the preceding fiscal.

SAIL's Bhadravathi Plant Privatisation Scrapped on Lack of Bidder Interest

Our Bureau
 New Delhi: The Centre Wednesday scrapped the privatisation process of SAIL subsidiary Bhadravathi steel plant citing insufficient bidder interest.
 "Due to insufficient bidder interest in proceeding further with the transaction, government of India, with the approval of Alternative Mechanism (Empowered Group of Ministers) has decided to annul the EoI and thereby terminating the present transaction," the Department of Investment and Public Asset Management (DIPAM) said.
 The Expression of Interest (EoI) for selling SAIL's 100% stake in Visvesvaraya Iron and Steel Plant (VISP), Bhadravathi, Karnataka, was invited in July 2019. The Cabinet had in October 2016 cleared strategic divestment of SAIL's stake in VISP.
 This is the second instance of the government withdrawing the strategic stake sale offer due to insufficient bidder interest.
 In May, the government scrapped plans to sell its 53% stake in BPCL, saying majority of the bidders had expressed their inability to participate in the privatisation process due to prevailing conditions in the global energy market.
 The government last month scrapped the divestment of Central Electronics Limited following the non-disclosure of litigation by the bidder Nandan Finance and Leasing Private Ltd.

IMF Puts India's Debt Ratio at 84% of GDP by 2022 end

Washington: India's debt ratio is projected to be 84% of its GDP by the end of 2022, which is higher than many emerging economies, but its debt is a little bit easier to sustain, a senior IMF official has said.
 Stressing that it is important for India to now have a very clear medium-term objective on the fiscal, Paolo Mauro, Deputy Director, Fiscal Affairs Department, International Monetary Fund, said there's still not a whole lot of clarity on the fiscal anchor.
 "It would be very important to give reassurance to people and to investors that things are under control, and things are going to become less vulnerable over time," Mauro said.
 "In terms of debt ratio, India right now at the end of 2022, we're projecting it at about 84% of GDP. That is higher than in many emerging economies," he said. Of course, India has a lot of special features being the most populous country by now and being a very large, emerging economy, he said.
 "The other things that are special in a way or distinctive compared with other emerging economies are that most of India's debt is in non-indexed domestic currency and there's a large investor base from India. So those are good features to have and that's what makes this debt a little bit easier to sustain," Mauro said.
 Having said that, the rollover, the necessity to borrow every year is very significant. It's about 15 per cent of the GDP, he said. - PTI

AVAILABLE LAND IN BIHAR FOR GRAIN BASED DISTILLERIES ETHANOL PLANT

100 Acres Industrial Converted Land with Boundary Walls & Permission of 750 KLPD FOR SALE IN BIHAR

- 40 kms away from Airport
- 100 kms away from Kolkata/Delhi National Highway connectivity

E-mail : enquiry100acres@gmail.com

The government has set a modest divestment target of ₹65,000 crore for the current financial year 2022. It has raised ₹24,543.67 crore so far.

CCI Asks 4 Kraft Paper Makers' Associations and Members to Desist from Unfair Practices

New Delhi: The Competition Commission of India (CCI) on Wednesday asked four associations of kraft paper manufacturers and their members to cease and desist from unfair business practices after a probe by CCI found that these manufacturers entered into anti-competitive agreements. However, CCI did not impose any penalty as the accused entities were micro, medium and small enterprises (MSMEs).
 Three federations of corrugated box manufacturers complained to CCI in 2017 saying the kraft paper manufacturers were abusing their market dominance by rigging prices. It was alleged that various associations of kraft paper manufacturers, by way of periodic meetings and correspondences, directed their members to increase the price of the paper to be sold to buyers. In a 362-page order, CCI directed the four associations and their 115 members to "cease and desist" from indulging in such unfair business practices.
 CCI order also noted that kraft paper manufacturers had admitted their wrongdoing and agreed to correct practices.
 The complaint was filed by Federation of Corrugated Box Manufacturers of India, Andhra Pradesh Corrugated Box Manufacturers Association and Uttar Pradesh Corrugated Box Manufacturers Association.
 "Keeping in mind the peculiar facts and circumstances of the case, including the fact that the many of the kraft paper manufacturers were MSMEs and were going through economic and financial crisis as a fallout of COVID-19 pandemic, the CCI refrained from imposing any monetary penalty upon the infringing associations and kraft paper manufacturers," the order said.

Thank You Indian Plastics Industry **YIZUMI HPM**
 140+ Years of Experience | 160+ Patents | 200+ Honours

The Indian Market has Become the Largest Single Market Overseas for Yizumi HPM

1,500 Injection Molding Machines Sold **Our Commitment to India**

80,000 Square Meters Factory **Thank You, Gujarat**

Strengthening development in the Indian market to help achieve Yizumi HPM's global strategic objectives. As an important injection molding machine manufacturer in the industry.

In its first year of operation, the value of Yizumi HPM India factory shipment exceeded Rs 400 million. Yizumi HPM India factory has produced and sold 1,500 injection molding machines. The Indian market has emerged as the largest overseas single market for Yizumi HPM.

As the business of the Yizumi HPM India factory expanded, given its firm confidence in the continued development in the Indian market, with its strategic global industrial layout in mind, Yizumi HPM acquired a lot of land in Gujarat to build its own modern plant.

The new plant is located in the GIDC Industrial Park in Gujarat State covering an area of 80,000 plus square meters, current build up is 200,000 square feet in the first phase, which will be extended further, when it is fully completed the annual output is expected to be 10 billion rupees.

India Outlook may be Hit by Slowdown Globally: S&P

Our Bureau
New Delhi: India is facing a cacophony of factors that may shake its sovereign credit metrics, though the country's strong economic growth and sound external balance sheet provide a solid buffer against global market turbulence, S&P Global Ratings said on Wednesday. The ratings agency sees a 7.3% "sturdy growth supported by solid underlying momentum" in FY23, riding a strong domestic economy.

"High-frequency indicators, including purchasing manager's indices in services and manufacturing, automobile sales, and labour market surveys, suggest that India has so far maintained its momentum against the advent of external difficulties," S&P said in an FAQ 'Can India Sovereign Ratings Withstand The Global Sputter?' India's banking sector has shown solid recovery prospects and both private consumption and investment trends remain favourable, it said. The country's BBB- rating with a 'stable' outlook could, however, face pressure under "more severe conditions", S&P warned.

GROWTH, INFLATION AND CAD
S&P's FY23 growth forecast is higher than the Reserve Bank of India's 7% and half a percentage point more than the International Monetary Fund's downward revised 6.8%. A deeper global economic slowdown currently anticipated could have an adverse impact on India's economic performance in fiscals 2023 and 2024, S&P said, flagging multiple risks. These include tighter global monetary conditions, prolonged high inflation, and poor investment or consumer sentiment both at home and abroad.

Sept Consumer Inflation Stays Outside RBI Target Levels

New Delhi: With the September print coming in at 7.4%, India's consumer inflation has now stayed outside the Reserve Bank of India's (RBI) mandated target range of 2-6% for three consecutive quarters.

Under the monetary policy framework instituted in 2016, this breach constitutes a 'Failure to maintain inflation target', and the central bank is required to send out a report to the government. Retail inflation based on the consumer price index (CPI) has remained above the 6% upper tolerance threshold since January 2022. The six-member monetary policy committee (MPC) of the RBI, headed by the governor, is expected to meet soon to frame its response.

The report should explain the reasons for the failure to achieve the inflation target; remedial actions proposed to be taken by the bank; and the estimated time within which the inflation target is achieved once the proposed remedial actions are taken. The MPC meeting is likely to take place after Diwali as RBI Governor Shaktikanta Das and several officials are currently in the US to attend IMF and World Bank meetings.

Last month, the governor said the central bank considers the communication to the government for missing the inflation targets as privileged communication and will not be making it public.

SAIL Arm Divestment Scrapped

NEW DELHI: The Centre on Wednesday scrapped the privatisation process of SAIL subsidiary Bhadravathi steel plant. Due to insufficient bidder interest in proceeding further with the transaction, government of India, with the approval of Alternative Mechanism (Empowered Group of Ministers) has decided to annul the Expression of Interest, DIPAM announced.

Indians' Luxury Vehicle Buys Zooming

Almost 4 luxury cars were sold every hour in the country till Sept-end in 2022

Sharmistha.M
@timesgroup.com

New Delhi: India's rich and wealthy bought four luxury vehicles every hour in the first nine months of the year, underlining a strong rebound in the economy, which now ranks the third highest in billionaire population globally. Senior industry executives ET spoke to said pent-up demand as well as growing disposable

In Great Demand
LUXURY CAR SALES GROW 32% TO 25,000 UNITS IN JAN-SEP 2022
Age of Mercedes Benz car buyers in the country is at 26-36 years, which is among the lowest in the world

600-650 super-luxury cars may be sold this year, up 2-fold from 2021

able incomes have been spurring purchases, especially among startup owners and young professionals. Industry estimates as many as 25,000 luxury vehicles were sold in the segment in the first nine months of the year — an increase of 32% compared to the same period last year. Interestingly, sales of super-luxury cars (priced above ₹2.5 crore) have shot up at an even faster pace and are poised to double to 600-650 units in the ongoing calendar year. Be it sports cars, electric vehicles or luxury saloons, everything is flying off the shelves. Mercedes-Benz has sold out its latest EV EQS for the year, while Lamborghini is taking bookings for SUV Urus for 2023. "We are poised to record best-ever sales this year. Our volumes in the first nine months of the year have already crossed those for the whole of last year. We have pending orders for 7,000 vehicles. We would have sold more if we could have supplied in line with demand," said Santosh Iyer, vice-president (sales and marketing) at Mercedes-Benz India. As many as 11,469 vehicles were sold by the company till September 2022, an increase of 28% over the corresponding period last year. Mercedes-Benz India sold 11,242 units in 2021 and reported peak volumes of 15,538 units four years back (CY2018). Audi India head Balbir Singh Dhillion said there has been a marked change in consumer behaviour in the aftermath of the pandemic.

Budget will Focus on Growth and Address Inflation Concerns: FM

Sitharaman says costly energy and fertiliser remain a challenge in the short to medium term

Our Bureau

New Delhi: Finance minister Nirmala Sitharaman has said the upcoming Union Budget 2023-24 will have to be carefully structured to sustain the country's growth momentum even as it addresses inflation concerns.

At a fire-side chat with eminent economist Eshwar Prasad at the Brookings Institution in Washington DC, Sitharaman also asserted India will clock about 7% growth in the current fiscal despite slowing global economy and external uncertainty.

She is in the US to attend the annual meeting of the International Monetary Fund and the World Bank.

Talking about reports of many India startups moving base to other countries, the finance minister said the government is ready to talk to those contemplating moving overseas and addressing issues to help them stay in India.

"Specifics (of the next budget) may be difficult at this stage because it's a bit too early. But broadly, the growth priorities will be kept absolutely on the top," Sitharaman said, adding that inflation concerns will also have to be addressed.

"But then how would you manage growth would be the natural question... It will have to again be a very carefully structured budget in which

Clear Targets

What FM Says

Despite global slowdown, India to grow at 7% this fiscal

Rising energy and fertiliser prices remain a challenge

Measured and targeted fiscal incentives helped better inflation mgmt

US Treasury Secy Arrives Next Mth

Washington: US treasury secretary Janet Yellen has announced that she will travel to India next month to attend ninth edition of US-India Economic and Financial Partnership meeting, as she pitched for stronger ties between the two nations to address the world's most important economic challenges. The announcement by Yellen came as she met with her Indian counterpart Nirmala Sitharaman here. She said the US-India relationship is critical to addressing the world's most important economic challenges. -PTI

SAIL's Bhadravathi Plant Privatisation Scrapped

Our Bureau

New Delhi: The Centre Wednesday scrapped the privatisation process of SAIL subsidiary Bhadravathi steel plant citing insufficient bidder interest.

"Due to insufficient bidder interest in proceeding further with the transaction, government of India, with the approval of Alternative Mechanism (Empowered Group of Ministers) has decided to annul the EoI and thereby terminating the present transaction," the Department of Investment and Public Asset Management (DIPAM) said.

This is the second instance of the govt withdrawing the strategic stake sale offer

The Expression of Interest (EoI) for selling SAIL's 100% stake in Visvesvaraya Iron and Steel Plant (VISP), Bhadravathi, Karnataka, was invited in July 2019. The Cabinet had in October 2016 cleared strategic disinvestment of SAIL's stake in VISP. This is the second instance of the government withdrawing the strategic stake sale offer due to insufficient bidder interest.

In May, the government scrapped plans to sell its 53% stake in BPCL, saying majority of the bidders had expressed their inability to participate in the privatisation process due to prevailing conditions in the global energy market.

The government last month scrapped the divestment of Central Electronics Limited following the non-disclosure of litigation by the bidder Nandian Finance and Leasing Private Ltd.

The government has set a modest divestment target of ₹65,000 crore for the current fiscal year. During the current financial year 2022 it has raised ₹24,543.67 crore so far.

growth momentum will have to be sustained".

Discussions on the next annual budget, scheduled to be presented in February 2023, started this week.

The International Monetary Fund (IMF) on Tuesday cut India's growth forecast for FY23 to 6.8% from an earlier projection of 7.4%.

Sitharaman said the economy is likely to grow 7% in FY23 on the back of public investment, improvement in capacity utilisation, a broad-based revival in credit growth, strong corporate balance sheets, and upbeat consumer and business confidence amid the receding threat of the Covid-19 pandemic.

"We did not provide stimulus indis-

criminally. Both monetary and fiscal incentives were measured and targeted. India's relatively better inflation performance and currency stability could be traced to that," she added.

Rising energy and fertiliser prices remain a challenge in the short to medium term and they are hitting the country, Sitharaman said.

She said the high cost of natural gas may threaten the transition to clean energy and many countries including India will have to go back to coal to meet energy demands.

"Fertiliser prices, energy not just the price but also the availability, the risks to sourcing of energy... these are challenges which are not in the medi-

um term, not in the long term but also in the short term," Sitharaman said.

She said India is talking to different countries to make RuPay payment system acceptable there.

Sitharaman on Tuesday also met US treasury secretary Janet Yellen and discussed the bilateral relationship, the current global macroeconomic situation, and India's upcoming G-20 presidency, the finance ministry said in a statement on Wednesday.

CABINET NOD TO ENSURE UNHINDERED SUPPLY OF COOKING GAS Oil PSUs to Get ₹22,000 cr Grant to Cover LPG Losses

Our Bureau

New Delhi: The Cabinet approved a grant of ₹22,000 crore for state-run oil marketing companies on Wednesday to compensate them for losses incurred by selling cooking gas at below-market rates.

The grant will be distributed among the three corporations - Indian Oil, Bharat Petroleum and Hindustan Petroleum - and help ensure an "unhindered" supply of domestic cooking gas or LPG, said an official statement.

International prices of LPG had increased 300% between June 2020 and June 2022 but domestic price increases were only 72%, leading to significant losses for oil marketing companies, according to the statement.

"To insulate consumers from fluctuations in international LPG prices, the cost increase was not fully passed on to consumers of domestic LPG," it said.

A direct grant to oil companies to offset their losses on LPG sales is being made after a long time. For several years now, companies have been expected to sell cooking gas at market rates to customers, who then receive subsidies directly in their bank accounts from the government.

After the onset of Covid-19 in early 2020, which brought down the prices of LPG in the

international market, the subsidy was eliminated. But after international prices again started rising, the domestic rates did not go up proportionately, saddling oil companies with losses. The grant will help offset those losses.

Oil companies had initially demanded a grant of ₹44,000 crore but the government agreed to offer only half that amount.

TUNA-TEKRA CONTAINER TERMINAL

The cabinet also approved a proposal to develop a container terminal at Tuna-Tekra, Deendayal Port, in Gujarat under the public-private partnership mode.

Indian Economy on Firm Ground, but Severe Conditions Could Shake Outlook, says S&P

Our Bureau

New Delhi: India is facing a cacophony of factors that may shake its sovereign credit metrics, though the country's strong economic growth and sound external balance sheet provide a solid buffer against global market turbulence, S&P Global Ratings said on Wednesday.

The ratings agency sees a 7.3% "sturdy growth supported by solid underlying momentum" in FY23, riding a strong domestic economy.

"High-frequency indicators, including purchasing manager's indices in services and manufacturing, automobile sales, and labour market surveys, suggest that India has so far maintained its momentum against the advent of external difficulties," S&P said in an FAQ 'Can India Sovereign Ratings Withstand The Global Sputter?'

India's banking sector has shown solid recovery prospects and both private consumption and investment trends remain favourable, it said.

The country's BBB- rating with a 'stable' outlook could, however, face pressure under "more severe conditions", the ratings agency warned.

INFLATION AND CAD

S&P's FY23 growth forecast is higher than the Reserve Bank of India's 7% and half a percentage point more than the International Monetary Fund's downward revised 6.8%.

A deeper global economic slowdown currently anticipated could have an adverse impact on India's economic performance in fiscal 2023 and 2024, S&P said, flagging multiple risks. These include tighter global monetary conditions, prolonged high inflation, and poor investment or consumer sentiment both at home and abroad.

FM: Budget Will have to Balance Inflation, Growth

Our Bureau

New Delhi: Finance minister Nirmala Sitharaman said the upcoming budget will have to be carefully structured to sustain the country's growth momentum even as it addresses inflation concerns. She asserted India will clock about 7% growth in the current fiscal despite slowing global economy and external uncertainty.

The government is ready to talk to those contemplating moving overseas and addressing issues to help them stay in India, she said at a fire-side chat with eminent economist Eshwar Prasad at the Brookings Institute on Tuesday.

The FM is in Washington DC to attend the annual meeting of the International Monetary Fund and the World Bank.

"Specifics (of the next budget) may be difficult at this stage because it's a bit too early. But broadly the growth priorities will be kept absolutely on the top," she said, adding that inflation concerns will also have to be addressed. "But then how would you manage growth would be the natural question... It will have to again be a very carefully structured budget in which growth momentum will have to be sustained." Discussions on the next annual budget, scheduled to be presented in February, started this week. The IMF on Tuesday cut India's growth forecast for FY23 to 6.8% from an earlier projection of 7.4%.

The FM said the economy is likely to grow 7% in FY23 on the back of public investment, improvement in capacity utilisation, a broad-based revival in credit growth, strong corporate balance sheets, and upbeat consumer and business confidence amid the receding threat of the pandemic. "We did not provide stimulus indiscriminately. Both monetary and fiscal incentives were measured and targeted. India's relatively better inflation performance and currency stability could be traced to that," she added.

Global Slowdown may Hit India's FY23-24 Growth

New Delhi: India is facing a cacophony of factors that may shake its sovereign credit metrics, though the country's strong economic growth and sound external balance sheet provide a solid buffer against global market turbulence, S&P Global Ratings said on Wednesday. A deeper global economic slowdown currently anticipated could have an adverse impact on India's economic performance in fiscals 2023 and 2024, S&P said. "High-frequency indicators, including purchasing manager's indices in services and manufacturing, automobile sales, and labour market surveys, suggest that India has maintained its momentum against the advent of external difficulties," S&P said.— Our Bureau

Luxury Car Sales Get Major Boost

Sharmistha.M
@timesgroup.com

New Delhi: India's rich and wealthy bought four luxury vehicles every hour in the first nine months of the year, underlining a strong rebound in the economy which now ranks the third highest in billionaire population globally.

Senior industry executives ET spoke to said pent-up demand, as well as growing disposable incomes have been spurring purchases, especially among startup owners and young professionals.

Industry estimates as many as 25,000 luxury vehicles were sold in the segment in the first nine months of the year — an increase of 32% compared to the same period last year. Interestingly, sales of super-luxury cars (priced over ₹2.5 crore) have shot up at an even faster pace and are poised to double to 600-650 units in the ongoing calendar year. Be it sports cars, electric vehicles or luxury saloons, everything is flying off the shelves. Mercedes-Benz has sold out its latest EV EQS for the year, while Lamborghini is taking bookings for SUV Urus for 2023. Audi India Head Balbir Singh Dhillon said there has been a marked change in consumer behaviour after the pandemic.

"We are poised to record best-ever sales this year. Our volumes in the first nine months of the year have already crossed those for the whole of last year. We additionally have pending orders for 7,000 vehicles. We would have sold more if we could have supplied in line with demand," said Santosh Iyer, vice-president (sales and marketing) at Mercedes-Benz India. As many as 11,469 vehicles were sold by the company till September 2022, an increase of 28% over the corresponding period last year.

Audi India Head Balbir Singh Dhillon said there has been a marked change in consumer behaviour after the pandemic.

Budget will Focus on Growth, Address Inflation Concerns: FM

Sitharaman confident of 7% expansion in current fiscal but says costly energy and fertiliser remain a challenge in the short to medium term

Our Bureau
 New Delhi: Finance minister Nirmala Sitharaman has said the upcoming Union Budget 2023-24 will have to be carefully structured to sustain the country's growth momentum even as it addresses inflation concerns.
 At a fire-side chat with eminent economist Eshwar Prasad at the Brookings Institution in Washington DC, Sitharaman also asserted India will clock about 7% growth in the current fiscal despite slowing global economy and external uncertainty.
 She is in the US to attend the annual meeting of the International Monetary Fund and the World Bank.
 Talking about reports of many India startups moving base to other countries, the finance minister said the government is ready to talk to

those contemplating moving overseas and addressing issues to help them stay in India.
 "Specifics (of the next budget) may be difficult at this stage because it's a bit too early. But broadly, the growth priorities will be kept absolutely on the top," Sitharaman said, adding that inflation concerns will also have to be addressed.
 "But then how would you manage growth would be the natural question... It will have to again be a very carefully structured budget in which growth momentum will have to be sustained."
 Discussions on the next annual budget, scheduled to be presented in February 2023, started this week.
 The International Monetary Fund (IMF) on Tuesday cut India's growth forecast for FY23 to 6.8% from an earlier projection of 7.4%. Sitharaman said the economy is

Clear Targets

What FM Says
 Despite global slowdown, India to grow at 7% this fiscal

Measured and targeted fiscal incentives helped better inflation mgmt

Rising energy and fertiliser prices remain a challenge

High cost of natural gas may threaten transition to clean energy

We did not provide stimulus indiscriminately. Both monetary and fiscal incentives were measured and targeted. India's relatively better inflation performance and currency stability could be traced to that

US Treasury Secy Arrives Next Month

Washington: US Treasury Secretary Janet Yellen has announced that she will travel to India next month to attend the ninth edition of the US-India Economic and Financial Partnership meeting, as she pitched for strong ties between the two nations to address the world's most important economic challenges.
 The announcement by Yellen

came as she met with her Indian counterpart Nirmala Sitharaman here. "I am glad to announce today that in November ahead of the G20 meetings, I will take my first trip to India as Treasury Secretary, to attend the US-India Economic and Financial Partnership, our ninth partnership meeting," she said. - PTI

likely to grow 7% in FY23 on the back of public investment, improvement in capacity utilisation, a broad-based revival in credit growth, strong corporate balance sheets, and upbeat consumer and business confidence amid the receding threat of the Covid-19 pandemic.
 "We did not provide stimulus indiscriminately. Both monetary and fiscal incentives were measured and targeted. India's relatively better inflation performance and currency stability could be traced to that," she added.
 Rising energy and fertiliser prices remain a challenge in the short to medium term and they are hitting the country, Sitharaman said.
 She said the high cost of natural gas may threaten the transition to clean energy and many countries including India will have to go back to coal to meet energy demands.
 "Fertiliser prices, energy, not just the price but also the availability, the risks to sourcing of energy... these are challenges which are not in the medium term, not in the long term but also in the short term," Sitharaman said.
 She said India is talking to different countries to make RuPay payment system acceptable there.
 Sitharaman on Tuesday also met US treasury secretary Janet Yellen and discussed the bilateral relationship, the current global macroeconomic situation, and India's upcoming G-20 presidency, the finance ministry said in a statement on Wednesday.

CABINET APPROVAL TO ENSURE UNHINDERED SUPPLY

Oil PSUs to Get ₹22,000 cr Grant to Offset LPG Losses

Oil companies had initially demanded a grant of ₹44,000 crore

Our Bureau
 New Delhi: The Cabinet approved a grant of ₹22,000 crore for state-run oil marketing companies on Wednesday to compensate them for losses incurred by selling cooking gas at below-market rates.
 The grant will be distributed among the three corporations - Indian Oil, Bharat Petroleum and Hindustan Petroleum - and help ensure an "unhindered" supply of domestic cooking gas or LPG, said an official statement.
 International prices of LPG had increased 300% between June 2020 and June 2022 but domestic price increases were only 72%, leading to significant losses for oil marketing companies, according to the statement. "To insulate consumers from fluctuations in international LPG prices, the cost increase was not fully passed on to consumers of domestic LPG," it said.
 A direct grant to oil companies to offset their losses on LPG sales is being made after a long time. For several years

RAHUL SHARMA

GLOBAL VS LOCAL
 Global LPG prices rose 300% between June 2020 and June 2022 but domestic price rise was only 72%

now, companies have been expected to sell cooking gas at market rates to customers, who then receive subsidies directly in their bank accounts from the government.
 After the onset of Covid-19 in

early 2020, which brought down the prices of LPG in the international market, the subsidy was eliminated. But after international prices again started rising, the domestic rates did not go up proportionately, saddling oil companies with losses. The grant will help offset those losses.
 Oil companies had initially demanded a grant of ₹44,000 crore but the government agreed to offer only half of it.
NOD FOR CONTAINER TERMINAL
 The Cabinet also approved a proposal to develop a container terminal at Tuna-Tekra, Deendayal Port, in Gujarat under the public-private partnership mode.
 The estimated cost of ₹4,243.64 crore will be on the part of the concessionaire while common user facilities of ₹296.20 crore will be borne by the concessioning authority.
 During the concession period, the concessionaire will have the liberty to handle vessels up to 18 metre draught by deepening or widening its approach channel, berth pocket and turning circle.

CCI Asks Kraft Paper Makers to Desist from Unfair Practices

New Delhi: The Competition Commission of India (CCI) on Wednesday asked four associations of kraft paper manufacturers and their members to cease and desist from unfair business practices after a probe by CCI found them entering anti-competitive agreements. However, CCI did not impose any penalty as the accused entities were MSMEs.
 Three federations of corrugated box manufacturers complained to CCI in 2017, saying the kraft paper manufacturers were abusing market dominance by rigging prices.
 CCI order also noted that the kraft paper manufacturers had admitted their wrongdoing. - Our Bureau

POOR BIDDER RESPONSE

Privatisation of SAIL's Bhadravathi Steel Plant Scrapped

Our Bureau
 New Delhi: The Centre Wednesday scrapped the privatisation process of SAIL subsidiary Bhadravathi steel plant citing insufficient bidder interest.
 "Due to insufficient bidder interest in proceeding further with the transaction, government of India, with the approval of Alternative Mechanism (Empowered Group of Ministers) has decided to annul the EoI and thereby terminating the present transaction," the Department of Investment and Public Asset Management (DIPAM) said.

WITHDRAWING, AGAIN

This is the second instance of the govt withdrawing strategic stake sale offer for the plant

The Expression of Interest (EoI) for selling SAIL's 100% stake in Visvesvaraya Iron and Steel Plant (VISP), Bhadravathi, Karnataka, was invited in July 2019. The Cabinet had in October 2016 cleared strategic disinvestment of SAIL's stake in VISP.
 This is the second instance of the government withdrawing the strategic stake sale offer due to insufficient bidder interest.
 In May, the government scrapped plans to sell its 53% stake in BPCL, saying majority of the bidders had expressed their inability to participate in the privatisation process due to prevailing conditions in the global energy market.
 The government last month scrapped the divestment of Central Electronics Limited following the non-disclosure of litigation by the bidder Nandan Finance and Leasing Private Ltd.
 The government has set a modest disinvestment target of ₹65,000 crore for the current fiscal year. During the current financial year 2022 it has raised ₹24,543.67 crore so far.

The Indian Market has Become the Largest Single Market Overseas for Yizumi HPM

1,500 Injection Molding Machines Sold
80,000 Square Meters Factory

Our Commitment to India
Thank You, Gujarat

Strengthening development in the Indian market to help achieve Yizumi HPM's global strategic objectives. As an important injection molding machine manufacturer in the industry.

In its first year of operation, the value of Yizumi HPM India factory shipment exceeded Rs 400 million. Yizumi HPM India factory has produced and sold 1,500 injection molding machines. The Indian market has emerged as the largest overseas single market for Yizumi HPM.

As the business of the Yizumi HPM India factory expanded, given its firm confidence in the continued development in the Indian market, with its strategic global industrial layout in mind, Yizumi HPM acquired a lot of land in Gujarat to build its own modern plant.

The new plant is located in the GIDC Industrial Park in Gujarat State covering an area of 80,000 plus square meters, current build up is 200,000 square feet in the first phase, which will be extended further, when it is fully completed the annual output is expected to be 10 billion rupees.

Global Slowdown may Hit India's FY23-24 Growth: S&P

New Delhi: India is facing a cap-cophony of factors that may shake its sovereign credit metrics, though the country's strong economic growth and sound external balance sheet provide a solid buffer against global market turbulence, S&P Global Ratings said. A deeper global economic slowdown currently anticipated could have an adverse impact on India's economic performance in fiscals 2023 and 2024, S&P said. India's banking sector has shown solid recovery prospects and private consumption and investment trends is favourable, it said.—**Our Bureau**

Luxury Car Sales Get a Major Boost

Sharmista.M@timesgroup.com

New Delhi: India's rich and wealthy bought four luxury vehicles every hour in the first nine months of the year, underlining a strong rebound in the economy which now ranks the third highest in billionaire population globally.

Senior industry executives ET spoke to said pent-up demand, as well as growing disposable incomes have been spurring purchases, especially among startup owners and young professionals. Industry estimates as many as 25,000 luxury vehicles were sold in the segment in the first nine months of the year — an increase of 32% compared to the same period last year. Interestingly, sales of super-luxury cars (priced over ₹2.5 crore) have shot up at an even faster pace and are poised to double to 600-650 units in the ongoing calendar year.

Be it sports cars, electric vehicles or luxury saloons, everything is flying off the shelves. Mercedes-Benz has sold out its latest EV EQS for the year, while Lamborghini is taking bookings for SUV Urus for 2023. "We are poised to record best-ever sales this year. Our volumes in the first nine months of the year have already crossed those for the whole of last year. We additionally have pending orders for 7,000 vehicles. We would have sold more if we could have supplied in line with demand," said Santosh Iyer, vice-president (sales and marketing) at Mercedes-Benz India. As many as 11,469 vehicles were sold by the company till September 2022, an increase of 28% over the corresponding period last year. Audi India Head Balbir Singh Dhillon said there has been a marked change in consumer behaviour after the pandemic. "Post-Covid, the YOLO (you live only once) attitude has given rise to the indulgence quotient; there is an increase in disposable income along with pent-up demand which is aiding growth in the luxury car segment."

More younger people, especially in the category of start-up owners and young professionals, are keen on experiencing luxury at an early age. They have both the desire and means with increasing disposable incomes. Dhillon added from entry sedan A4 which is right up to top-end electric sports car RS e-tron GT that costs upwards of Rs 2 crore, Audi has seen a rise in young buyers over the last two years. Iyer concurred the average age of the Mercedes-Benz buyer in India too has reduced and now stands among the lowest in the world at 24-36 years. Also, within the luxury segment, demand has strengthened at higher end of the spectrum, for models priced over Rs 1 crore. "We have seen phenomenal growth, with sales at the top-end growing by 68% YTD. For the EQS alone (priced Rs 1.55 crore) we have registered more than 300 confirmed bookings."

The sales of super-luxury cars are poised to double to 600-650 units in the ongoing calendar year.

Budget Will have to Balance Inflation, Growth: FM

Our Bureau
New Delhi: Finance minister Nirmala Sitharaman said the upcoming budget will have to be carefully structured to sustain the country's growth momentum even as it addresses inflation concerns. She asserted India will clock

about 7% growth in the current fiscal despite slowing global economy and external uncertainty. The government is ready to talk to those contemplating moving overseas and addressing issues to help them stay in India, she said at a fire-side chat with eminent economist Eshwar Prasad at the Brookings Institute on Tuesday.

The FM is in Washington DC to attend the annual meeting of the International Monetary Fund and the World Bank. "Specifics (of the next budget) may be difficult at this stage because it's a bit too early. But broadly, the growth priorities will be kept absolutely on the top," she

said, adding that inflation concerns will also have to be addressed. "But then how would you manage growth would be the natural question... It will have to again be a very carefully structured budget in which growth momentum will have to be sustained."

Discussions on the next annual budget, scheduled to be presented in February, started this week. The IMF on Tuesday cut India's growth forecast for FY23 to 6.8% from an earlier projection of 7.4%. The FM said the economy is likely to grow 7% in FY23.

Consumer Inflation Rises to 7.4% in Sept

New Delhi: With the September print coming in at 7.4%, India's consumer inflation has now stayed outside the Reserve Bank of India's (RBI) mandated target range of 2-6% for three consecutive quarters. Under the monetary policy framework instituted in 2016, this breach constitutes a 'Failure to maintain inflation target', and the central bank is required to send out a report to the government. Retail inflation based on the consumer price index (CPI) has remained above the 6% upper tolerance threshold since January 2022. The six-member monetary policy committee (MPC) of the RBI, headed by the governor, is expected to meet soon to frame its response. The report should explain the reasons for the failure to achieve the inflation target; remedial actions proposed to be taken by the bank; and the estimated time within which the inflation target is achieved once the proposed remedial actions are taken. The MPC meeting is likely to take place after Diwali as RBI Governor Shaktikanta Das and several officials are currently in the US to attend IMF and World Bank meetings. Last month, the governor said the central bank considers the communication to the government for missing the inflation targets as privileged communication and will not be making it public.—**Our Bureau**

Budget will Focus on Growth and Address Inflation Concerns: FM

Sitharaman says costly energy and fertiliser remain a challenge in the short to medium term

Our Bureau

New Delhi: Finance minister Nirmala Sitharaman has said the upcoming Union Budget 2023-24 will have to be carefully structured to sustain the country's growth momentum even as it addresses inflation concerns. At a fire-side chat with eminent economist Eshwar Prasad at the Brookings Institution in Washington DC, Sitharaman also asserted India will clock about 7% growth in the current fiscal despite slowing global economy and external uncertainty. She is in the US to attend the annual meeting of the International Monetary Fund and the World Bank.

Talking about reports of many India startups moving base to other countries, the finance minister said the government is ready to talk to those contemplating moving overseas and addressing issues to help them stay in India. "Specifics (of the next budget) may be difficult at this stage because it's a bit too early. But broadly, the growth priorities will be kept absolutely on the top," Sitharaman said, adding that inflation concerns will also have to be addressed. "But then how would you manage growth would be the natural ques-

Clear Targets

What FM Says

Despite global slowdown, India to grow at 7% this fiscal

Rising energy and fertiliser prices remain a challenge

High cost of natural gas may threaten transition to clean energy

Measured and targeted fiscal incentives helped better inflation mgmt

US Treasury Secy Arrives Next Mth

Washington: US treasury secretary Janet Yellen has announced that she will travel to India next month to attend ninth edition of US-India Economic and Financial Partnership meeting, as she pitched for strong ties between the two nations to address the world's most important economic challenges. -PTI

CCI Asks 4 Kraft Paper Makers' Associations and Members to Desist from Unfair Practices

New Delhi: The Competition Commission of India (CCI) on Wednesday asked four associations of kraft paper manufacturers and their members to cease and desist from unfair business practices after a probe by CCI found that these manufacturers entered into anti-competitive agreements. However, CCI did not impose any penalty as the accused entities were micro, medium and small enterprises (MSMEs). Three federations of corrugated box manufacturers complained to CCI in 2017 saying the kraft paper manufacturers were abusing their market dominance by rigging prices. It was alleged that various associations of kraft paper manufacturers, by way of periodic meetings and correspondences, directed their members to increase the price of the paper to be sold to buyers. In a 362-page order, CCI directed the four associations and their 115 members to "cease and desist" from indulging in such unfair business practices. CCI order also noted that kraft paper manufacturers had admitted their wrongdoing and agreed to correct practices. -Our Bureau

IMF Puts India's Debt Ratio at 84% of GDP by '22 End

Washington: India's debt ratio is projected to be 84% of its GDP by the end of 2022, which is higher than many emerging economies, but its debt is a little bit easier to sustain, a senior IMF official has said. "It would be very important to give reassurance to people and to investors that things are under control, and things are going to become less vulnerable over time," Mauro said. "In terms of debt ratio, India right now at the end of 2022, we're projecting it at about 84% of GDP. That is higher than in many emerging economies," he said. Of course, India has a lot of special features being the most populous country by now and being a very large, emerging economy, he said. -PTI

CABINET NOD TO ENSURE UNHINDERED SUPPLY OF COOKING GAS

Oil PSUs to Get ₹22,000 crore Grant to Cover LPG Losses

Our Bureau

New Delhi: The Cabinet approved a grant of ₹22,000 crore for state-run oil marketing companies on Wednesday to compensate them for losses incurred by selling cooking gas at below-market rates.

The grant will be distributed among the three corporations Indian Oil, Bharat Petroleum and Hindustan Petroleum and help ensure an "unhindered" supply of domestic cooking gas or LPG, said an official statement.

International prices of LPG had increased 300% between June 2020 and June 2022 but domestic price increases were only 72%, leading to significant losses for oil marketing

companies, according to the statement. "To insulate consumers from fluctuations in international LPG prices, the cost increase was not fully passed on to consumers of domestic LPG," it said.

A direct grant to oil companies to offset their losses on LPG sales is being made after a long time. For several years now, companies have been expected to sell cooking gas at market rates to customers, who then receive subsidies directly in their bank accounts from the government.

After the onset of Covid-19 in early 2020, which brought down the prices of LPG in the international market, the subsidy was eliminated. But after international prices again started rising, the do-

mestic rates did not go up proportionately, saddling oil companies with losses. The grant will help offset those losses. Oil companies had initially demanded a grant of ₹44,000 crore but the government agreed to offer only half that amount.

TUNA-TEKRA TERMINAL
The cabinet also approved a proposal to develop a container terminal at Tuna-Tekra, Deendayal Port, in Gujarat under the public-private partnership mode.

The estimated cost of ₹4,243.64 crore will be on the part of the concessionaire while common user facilities of ₹296.20 crore will be borne by the concessioning authority.

Indian Economy on Firm Ground, but Severe Conditions Could Shake Outlook, Says S&P

Our Bureau

New Delhi: India is facing a cacophony of factors that may shake its sovereign credit metrics, though the country's strong economic growth and sound external balance sheet provide a solid buffer against global market turbulence, S&P Global Ratings said on Wednesday.

The ratings agency sees a 7.3% "sturdy growth supported by solid underlying momentum" in FY23, riding a strong domestic economy. "High-frequency indicators, including purchasing manager's indices in services and manufacturing, automobile sales, and labour market surveys, suggest that India has so far maintained its momentum against the advent of external difficulties," S&P said in an FAQ 'Can India Sovereign Ratings Withstand The Global Sputter?'. India's banking sector has shown solid recovery prospects and both private consumption and investment trends remain favourable, it said. The country's BBB rating with a 'stable' outlook could, however, face pressure under "more severe conditions", the ratings agency warned.

GROWTH, INFLATION AND CAD
S&P's FY23 growth forecast is higher than the Reserve Bank of India's 7% and half a percentage point more than the International Monetary Fund's downward revised 6.8%. A deeper global economic slowdown currently anticipated could have an adverse impact on India's economic performance in fiscals 2023 and 2024, S&P said, flagging multiple risks.

These include tighter global monetary conditions, prolonged high inflation, and poor investment or consumer sentiment both at home and abroad.

Foreign exchange reserves have dropped to about \$533 billion from a peak of about \$634 billion in 2021, in part because of the growing current account deficit that S&P says will jump to 3% of GDP in the current fiscal year from 1.6% in the preceding fiscal. S&P expects commodity prices, particularly for energy, to stabilise around current levels through 2023, after which they may decline more meaningfully, which would help moderate the current account deficit.

80,000 Square Meters Factory

Our Commitment to India

Thank You, Gujarat

Strengthening development in the Indian market to help achieve Yizumi HPM's global strategic objectives. As an important injection molding machine manufacturer in the industry.

In its first year of operation, the value of Yizumi HPM India factory shipment exceeded Rs 400 million. Yizumi HPM India factory has produced and sold 1,500 injection molding machines. The Indian market has emerged as the largest overseas single market for Yizumi HPM.

As the business of the Yizumi HPM India factory expanded, given its firm confidence in the continued development in the Indian market, with its strategic global industrial layout in mind, Yizumi HPM acquired a lot of land in Gujarat to build its own modern plant.

The new plant is located in the GIDC Industrial Park in Gujarat State covering an area of 80,000 plus square meters, current build up is 200,000 square feet in the first phase, which will be extended further, when it is fully completed the annual output is expected to be 10 billion rupees.

Budget will Focus on Growth and Address Inflation Concerns: FM

Sitharaman says costly energy and fertiliser remain a challenge in the short to medium term

Our Bureau
New Delhi: Finance minister Nirmala Sitharaman has said the upcoming Union Budget 2023-24 will have to be carefully structured to sustain the country's growth momentum even as it addresses inflation concerns.
At a fire-side chat with eminent economist Eshwar Prasad at the Brookings Institution in Washington DC, Sitharaman also asserted India will clock about 7% growth in the current fiscal despite slowing global economy and external uncertainty.
She is in the US to attend the annual meeting of the International Monetary Fund and the World Bank.
Talking about reports of many India startups moving base to other countries, the finance minister said the government is ready to talk to those contemplating moving overseas and addressing issues to help them stay in India.
"Specifics (of the next budget) may be difficult at this stage because it's a bit too early. But broadly, the growth priorities will be kept absolutely on the top," Sitharaman said, adding that inflation concerns will also have to be addressed.
"But then how would you manage growth would be the natural question... It will have to again be a very carefully structured budget in which growth momentum will have to be sustained".
Discussions on the next annual budget,

Clear Targets

What FM Says
Despite global slowdown, India to grow at 7% this fiscal

Rising energy and fertiliser prices remain a challenge

High cost of natural gas may threaten transition to clean energy

scheduled to be presented in February 2023, started this week.
The International Monetary Fund (IMF) on Tuesday cut India's growth forecast for FY23 to 6.8% from an earlier projection of 7.4%.
Sitharaman said the economy is likely to grow 7% in FY23 on the back of public investment, improvement in capacity utilisation, a broad-based revival in credit growth, strong corporate balance sheets, and upbeat consumer and business confidence amid the receding threat of the Covid-19 pandemic.
"We did not provide stimulus indiscriminately. Both monetary and fiscal incentives were measured and targeted. India's relatively better inflation performance and currency stability could be traced to that," she added.
Rising energy and fertiliser prices remain a challenge in the short to medium term and they are hitting the country, Sitharaman said.
She said the high cost of natural gas may threaten the transition to clean energy and many countries including India will have to go back to coal to meet energy demands.
"Fertiliser prices, energy, not just the price but also the availability, the risks of sourcing of energy... these are challenges

US Treasury Secy Arrives Next Mth

Washington: US treasury secretary Janet Yellen has announced that she will travel to India next month to attend ninth edition of US-India Economic and Financial Partnership meeting, as she pitched for strong ties between the two nations to address the world's most important economic challenges.
The announcement by Yellen came as she met with her Indian counterpart Nirmala Sitharaman here. "I am glad to announce today that in November ahead of the G20 meetings, I will take my first trip to India as Treasury Secretary," she said. - PTI

which are not in the medium term, not in the long term but also in the short term," Sitharaman said.
She said India is talking to different countries to make RuPay payment system acceptable there.
Sitharaman on Tuesday also met US treasury secretary Janet Yellen and discussed the bilateral relationship, the current global macroeconomic situation, and India's upcoming G-20 presidency, the finance ministry said in a statement on Wednesday.

CABINET APPROVAL TO ENSURE UNHINDERED SUPPLY OF COOKING GAS

Oil PSUs to Get ₹22,000 cr Grant to Cover LPG Losses

Our Bureau
New Delhi: The Cabinet approved a grant of ₹22,000 crore for state-run oil marketing companies on Wednesday to compensate them for losses incurred by selling cooking gas at below-market rates.
The grant will be distributed among the three corporations - Indian Oil, Bharat Petroleum and Hindustan Petroleum - and help ensure an "unhindered" supply of domestic cooking gas or LPG, said an official statement.
International prices of LPG had increased 300% between June 2020 and June 2022 but domestic price increases were only 72%, leading

to significant losses for oil marketing companies, according to the statement. "To insulate consumers from fluctuations in international LPG prices, the cost increase was not fully passed on to consumers of domestic LPG," it said.
A direct grant to oil companies to offset their losses on LPG sales is being made after a long time. For several years now, companies have been expected to sell cooking gas at market rates to customers, who then receive subsidies directly in their bank accounts from the government.
After the onset of Covid-19 in early 2020, which brought down the prices of LPG in the international market, the subsidy was eliminated. But after international prices again started rising, the domestic rates did not go up proportionately, saddling oil companies with losses. The grant will help offset those losses.
Oil companies had initially demanded a grant of ₹44,000 crore but the government agreed to offer only half that amount.
TUNA-TEKRA CONTAINER TERMINAL
The cabinet also approved a proposal to develop a container terminal at Tuna-Tekra, Deendayal Port, in Gujarat under the public-private partnership mode.
The estimated cost of ₹4,243.64 crore will be on the part of the concessionaire.

Indian Economy on Firm Ground, but Severe Conditions Could Shake Outlook, Says S&P

Our Bureau

New Delhi: India is facing a cacophony of factors that may shake its sovereign credit metrics, though the country's strong economic growth and sound external balance sheet provide a solid buffer against global market turbulence, S&P Global Ratings said on Wednesday.

The ratings agency sees a 7.3% "sturdy growth supported by solid underlying momentum" in FY23, riding a strong domestic economy. "High-frequency indicators, including purchasing manager's indices in services and manufacturing, automobile sales, and labour market surveys, suggest that India has so far maintained its momentum against the advent of external difficulties," S&P said in an FAQ 'Can India Sovereign Ratings Withstand The Global Sputter?'. India's banking sector has shown solid recovery prospects and both private consumption and investment trends remain favourable, it said. The country's BBB rating with a 'stable' outlook could, however, face pressure under "more severe conditions", the ratings agency warned.

GROWTH, INFLATION AND CAD S&P's FY23 growth forecast is higher than the Reserve Bank of India's 7% and half a percentage point more than the International Monetary Fund's downward revised 6.8%. A deeper global economic slowdown currently anticipated could have an adverse impact on India's economic performance in fiscals 2023 and 2024, S&P said, flagging multiple risks.

These include tighter global monetary conditions, prolonged high inflation, and poor investment or consumer sentiment both at home and abroad.

Foreign exchange reserves have dropped to about \$533 billion from a peak of about \$634 billion in 2021, in part because of the growing current account deficit that S&P says will jump to 3% of GDP in the current fiscal year from 1.6% in the preceding fiscal. S&P expects commodity prices, particularly for energy, to stabilise around current levels through 2023, after which they may decline more meaningfully, which would help moderate the current account deficit.

CCI Asks 4 Kraft Paper Makers' Associations and Members to Desist from Unfair Practices

New Delhi: The Competition Commission of India (CCI) on Wednesday asked four associations of kraft paper manufacturers and their members to cease and desist from unfair business practices after a probe by CCI found that these manufacturers entered into anti-competitive agreements. However, CCI did not impose any penalty as the accused entities were micro, medium and small enterprises (MSMEs). Three federations of corrugated box manufacturers complained to CCI in 2017 saying the kraft paper manufacturers were abusing the

ir market dominance by rigging prices. It was alleged that various associations of kraft paper manufacturers, by way of periodic meetings and correspondences, directed their members to increase the price of the paper to be sold to buyers. In a 362-page order, CCI directed the four associations and their 115 members to "cease and desist" from indulging in such unfair business practices.

CCI order also noted that kraft paper manufacturers had admitted their wrongdoing and agreed to correct practices. -Our Bureau

IMF Puts India's Debt Ratio at 84% of GDP by '22 End

Washington: India's debt ratio is projected to be 84% of its GDP by the end of 2022, which is higher than many emerging economies, but its debt is a little bit easier to sustain, a senior IMF official has said.

Stressing that it is important for India to now have a very clear medium-term objective on the fiscal, Paolo Mauro, Deputy Director, Fiscal Affairs Department, International Monetary Fund, said there's still not a whole lot of clarity on the fiscal anchor.

"It would be very important to give reassurance to people and to investors that things are under control, and things are going to become less vulnerable over time," Mauro said.

"In terms of debt ratio, India right now at the end of 2022, we're projecting it at about 84% of GDP. That is higher than in many emerging economies," he said. Of course, India has a lot of special features being the most populous country by now and being a very large, emerging economy, he said. -PTI

YIZUMI HPM 140+ Years of Experience | 160+ Patents | 200+ Honours

The Indian Market has Become the Largest Single Market Overseas for Yizumi HPM

1,500 Injection Molding Machines Sold **Our Commitment to India**

80,000 Square Meters Factory **Thank You, Gujarat**

Strengthening development in the Indian market to help achieve Yizumi HPM's global strategic objectives. As an important injection molding machine manufacturer in the industry.

In its first year of operation, the value of Yizumi HPM India factory shipment exceeded Rs 400 million. Yizumi HPM India factory has produced and sold 1,500 injection molding machines. The Indian market has emerged as the largest overseas single market for Yizumi HPM.

As the business of the Yizumi HPM India factory expanded, given its firm confidence in the continued development in the Indian market, with its strategic global industrial layout in mind, Yizumi HPM acquired a lot of land in Gujarat to build its own modern plant.

The new plant is located in the GIDC Industrial Park in Gujarat State covering an area of 80,000 plus square meters, current build up is 200,000 square feet in the first phase, which will be extended further, when it is fully completed the annual output is expected to be 10 billion rupees.

Inaugurated by Shri Jagdishbhai Vishwakarma Panchal, Minister of state in Cottage Industries, Minister of state in Cooperation, Minister of Protocol, Industries, Salt-Industries and Forest, Environment & Climate Change, Minister of state, Roads and Buildings

Govt Pushes Telcos, Phone Makers for Regular Updates on 5G Rollout

Aims to track and speed up uptake of next-gen services in the country

Kiran Rathee & Subhrojit Mallick

New Delhi: The government has told telecom operators and smartphone makers to give weekly or bi-weekly status updates on their 5G network rollouts and how many devices have onboarded the network as it looks to track and speed up the uptake of the next generation services in the country.

As per officials aware of the matter, the directive on updates was given during a meeting with telecom operators and smartphone manufacturers on Wednesday, which was chaired by electronics and information technology secretary Alkesh Kumar Sharma. Telecom secretary K Rajaraman did not attend the meeting due to ill health. "Telecom operators need to inform about addition of 5G sites while smartphone makers have to give a list of models supporting 5G," one of the officials told ET. The official further said most of the smartphone makers, including Samsung and Apple, have assured the government that they will be expediting software updates on devices for 5G.

In separate statements Wednesday,

Keeping Track

Govt has asked for weekly or bi-weekly status updates

Directive on updates was given during a meeting with telcos, handset cos on Wednesday, which was chaired by electronics and IT secy Alkesh Kumar Sharma

Apple said it will push through the updates in December, while Samsung put the timeline at mid-November.

Wednesday's meeting was attended by representatives from smartphone brands including Apple, Samsung, Xiaomi, HMD Global, Transsion, Lava, Karbonn, Realme, Micromax, Motorola, Oppo, OnePlus and Vivo. Representatives from the India Cellular and Electronics Association, Qualcomm, UTL Neolync, along with the operators including Bharti Airtel, Reliance Jio and Vodafone Idea were also part of the deliberations.

The meeting came after consumer feedback that despite some telcos saying that 5G services were available in some cities, subscribers are not able to avail of 5G connectivity. While telcos

say they are calibrating the rollout of 5G sites due to lack of a device ecosystem with only 8-9% of all devices supporting 5G, some smartphone makers say they haven't offered support as they are still testing for performance quality and battery life, since networks are still patchy.

The main points of concern for the government have been around the 5G support for Apple and Samsung devices, said officials.

Prime Minister Narendra Modi had announced the launch of 5G services in India on October 1. On the same day, Airtel announced launch of services in eight cities including Delhi and Mumbai, while Reliance Jio launched beta trial services in four cities on October 4, including the three metro cities and

Varanasi on an invite only basis.

Majority of devices from Chinese handset brands like Xiaomi, Realme, Oppo and Vivo, however, have already enabled 5G support on Airtel's network across their portfolio of 5G smartphones launched since 2020.

In a statement, iPhone-maker Apple said it will provide the software update to support 5G services in India in December. "We are working with our carrier partners in India to bring the best 5G experience to iPhone users as soon as network validation and testing for quality and performance is completed. 5G will be enabled via a software update and will start rolling out to iPhone users in December," Apple said. The government wants the update to be rolled out before December.

As per officials in the telecom industry, Apple is in the final stages of testing devices with Bharti Airtel's non-standalone and Reliance Jio's standalone networks and is working to push out the software updates earlier, possibly in November. Apple is presently testing the 5G-enabled iPhones that includes the iPhone 12, iPhone 13, and iPhone 14 series along with the iPhone SE (3rd Generation) on the carriers that have gone live with 5G services in the country.

Since only Airtel and Jio have launched 5G services so far, Apple will likely have to do another round of testing with cash-strapped Vodafone Idea's 5G network when it is switched on.

Indian Green Energy Cos Join Hands to Develop a Carbon Credit Market

New Delhi: India's green energy companies, such as Adani Green, owned by billionaire Gautam Adani's Adani Group, and carbon offsetters like EKI Energy Services, have come together to develop a carbon credit market to help achieve energy transition goals.

India is one of the world's biggest greenhouse gas emitters and it aims to reach net zero emissions by 2070. PM Narendra Modi wants India to become an industrial powerhouse

while also cutting emissions by 60 million tonnes a year by 2030, highlighting the importance of a robust carbon trading market.

"A domestic market that is formed in unison and close consultation with relevant industry stakeholders can tremendously accelerate the country's transition to become carbon neutral," Manish Dabkara, president of the newly-formed Carbon Market Association of India, told the media on Tuesday.— Reuters

Smartphone Shipments Down 20-25% YoY in Festive Season

Subhrojit.Mallick@timesgroup.com

New Delhi: Smartphone shipments in the festive season so far are as much as 20-25% lower from a year earlier at around 18 million units, hurt by tepid demand in the high-volume, entry-level, price segments amid accelerating inflation, say market trackers. However, revenue from smartphone sales since the start of the season late last month has increased to a record \$3 billion, as a result of higher average prices as brands pushed costlier devices with offers and discounts, they added.

"Based on our conversations with OEMs (manufacturers) and channels, smartphone shipments were at 18 million units, 20-25% less than what was seen last year," said Faisal Kawoosa, chief analyst at market research firm TechArc.

Revenue was up by 30%, hitting a record \$3 billion, he added. Strategy Analytics' research is more conservative, stating the first eight days of festive season sales saw 12.8 million smartphones sold, a 2% decline from last year. However, revenues jumped 17% to \$2.1 billion.

Analyst Abhilash Kumar of Strategy Analytics cited less sales of entry-level devices amid high inflation and recession worries for the fall in sales volume. "But the ASP (average selling price) growth offset the volume decline and delivered a decent revenue growth," he added. Samsung, Xiaomi and Realme are the top-3 beneficiaries from this festive season sale, said Linda Sui, senior director at Strategy Analytics.

"These three brands combined accounted for 62% of the overall sales in volume terms." Samsung led with a share of 26%, selling 3.3 million units during the first half of the festive season. This was followed by Xiaomi with 2.5 million units and Realme with 2.2 million units, the firm estimated.

Apple's iPhones, while not figuring in the top three, also sold well on account of up to a 33% discount at major retailers, with the iPhone 13 being the most popular among Apple devices, Strategy Analytics found.

IDC India expects shipments to remain flat compared with last year, but revenue to hit a record high. "You will see more stories about value growth, but if you double click on them, you will see the volumes have gone down," said Navkendar Singh, associate vice president of devices research, IDC India. "That means that people are buying more expensive smartphones. As a result, there is not much growth below the mid-range segment," he added.

While the first half of the festive season sales that began from September 23 was dominated by online channels, with 60% of the smartphone sales happening on Amazon and Flipkart, according to IDC's Singh, the second half can see footfalls going up in mainline retail stores. "Offline sales will pick up now and smartphone brands will incentivise retailers with schemes to pick up more stocks, and also divert leftover online stocks to offline channels," IDC's Singh said. But mainline retailers ET spoke to said that while there is expected to be increased footfalls during the days preceding Diwali, there is going to be a mismatch in expectations among customers.

Apple's iPhones, while not figuring in the top three, also sold well on account of up to a 33% discount at major retailers, with the iPhone 13 being the most popular among Apple devices, Strategy Analytics found.

MUMBAI Tata Power Trading Company (TPTCL), a wholly-owned subsidiary of Tata Power, and 75F Smart Innovations India have signed an agreement to jointly promote building automation and energy-efficiency solutions in the commercial building space across industry verticals like IT/TeS, BFSI hospitality, healthcare, education, government and retail, reports **Our Bureau**. The association will greatly help businesses optimise their energy consumption and usage.

Govt Seeks Regular Updates on 5G Rollout from Telcos

Aims to track and speed up uptake of next-gen services in the country

Kiran Rathee & Subhrojit Mallick

New Delhi: The government has told telecom operators and smartphone makers to give weekly or bi-weekly status updates on their 5G network rollouts and how many devices have onboarded the network as it looks to track and speed up the uptake of the next generation services in the country.

As per officials aware of the matter, the directive on updates was given during a meeting with telecom operators and smartphone manufacturers on Wednesday, which was chaired by electronics and information technology secretary Alkesh Kumar Sharma. Telecom secretary K Rajaraman did not attend the meeting due to ill health. "Telecom operators need to inform about addition of 5G sites while smartphone makers have to give a list of models supporting 5G," one of the officials told ET. The official further said most of the smartphone makers, including Samsung and Apple, have assured the government that they will be expediting software updates on devices for 5G.

In separate statements Wednesday, Apple said it will push through the updates in December, while Samsung put the timeline at mid-November.

Wednesday's meeting was attended by representatives from smartphone brands including Apple, Samsung, Xiaomi, HMD Global, Transsion, Lava, Karbonn, Realme, Micromax, Motorola, Oppo, OnePlus and Vivo. Representatives from the India Cellular and Electronics Association, Qualcomm, UTL Neolync, along with the operators including Bharti Airtel, Reliance Jio and Vodafone Idea were also part of the deliberations. The meeting came after consumer feedback that despite some telcos saying that 5G services were available in some cities, subscribers are not able to avail of 5G connectivity. While telcos say they are calibrating the rollout of 5G sites due to lack of a device ecosystem with only 8-9% of all devices supporting 5G, some smartphone makers say they haven't offered support as they are still testing for performance quality and battery life, since networks are still patchy.

The main points of concern for the government have been around the 5G support for Apple and Samsung devices, said officials.

Since only Airtel and Jio have launched 5G services so far, Apple will likely have to do another round of testing with cash-strapped Vodafone Idea's 5G network when it is switched on.

Smartphone Shipments Down 20-25% in Festive Season

Experts blame it on tepid demand in high-volume, entry-level, price segments amid rising inflation

Subhrojit.Mallick@timesgroup.com

New Delhi: Smartphone shipments in the festive season so far are as much as 20-25% lower from a year earlier at around 18 million units, hurt by tepid demand in the high-volume, entry-level, price segments amid accelerating inflation, say market trackers.

However, revenue from smartphone sales since the start of the season late last month has increased to a record \$3 billion, as a result of higher average prices as brands pushed costlier devices with offers and dis-

counts, they added.

"Based on our conversations with OEMs (manufacturers) and channels, smartphone shipments were at 18 million units, 20-25% less than what was seen last year," said Faisal Kawoosa, chief analyst at market research firm TechArc.

Revenue was up by 30%, hitting a record \$3 billion, he added.

Strategy Analytics' research is more conservative, stating the first eight days of festive season sales saw 12.8 million smartphones sold, a 2% decline from last year. However, revenues jumped 17% to \$2.1 billion. Analyst Abhilash Kumar of Strate-

gy Analytics cited less sales of entry-level devices amid high inflation and recession worries for the fall in sales volume. "But the ASP (average selling price) growth offset the volume decline and delivered a decent revenue growth," he added.

Samsung, Xiaomi and Realme are the top-3 beneficiaries from this festive season sale, said Linda Sui, senior director at Strategy Analytics. "These three brands combined accounted for 62% of the overall sales in volume terms," Samsung led with

a share of 26%, selling 3.3 million units during the first half of the festive season. This was followed by Xiaomi with 2.5 million units and Realme with 2.2 million units, the firm estimated. Apple's iPhones, while not figuring in the top three, also sold well on account of up to a 33% discount at major retailers, with the iPhone 13 being the most popular among Apple devices, Strategy Analytics found. IDC India expects shipments to

remain flat compared with last year, but revenue to hit a record high.

"You will see more stories about value growth, but if you double click on them, you will see the volumes have gone down," said Navkendar Singh, associate vice president of devices research, IDC India. "That means that people are buying more expensive smartphones. As a result, there is not much growth below the mid-range segment," he added.

SAIL's Bhadravathi Plant Privatisation Scrapped on Lack of Bidder Interest

Our Bureau

New Delhi: The Centre Wednesday scrapped the privatisation process of SAIL subsidiary Bhadravathi steel plant citing insufficient bidder interest.

"Due to insufficient bidder interest in proceeding further with the transaction, government of India, with the approval of Alternative Mechanism (Empowered Group of Ministers) has decided to annul the EoI and thereby terminating the present transaction," the Department of Investment and Public Asset Management (DIPAM) said.

The Expression of Interest (EoI) for selling SAIL's 100% stake in Visvesvaraya Iron and Steel Plant (VISP), Bhadravathi, Karnataka, was invited in July 2019. The Cabinet had in October 2016 cleared strategic divestment of SAIL's stake in VISP.

This is the second instance of the government withdrawing the strategic stake sale offer due to insufficient bidder interest.

In May, the government scrapped plans to sell its 53% stake in BPCL, saying majority of the bidders had expressed their inability to

participate in the privatisation process due to prevailing conditions in the global energy market.

The government last month scrapped the divestment of Central Electronics Limited following the non-disclosure of litigation

by the bidder Nandan Finance and Leasing.

The government has set a modest disinvestment target of ₹65,000 crore for the current fiscal year. During the current financial year 2022 it has raised ₹24,543.67 crore so far.

NCLT Admits IREP Credit's Insolvency Plea against Rajesh Landmark Projects

Maulik Vyas & Kailash Babar

Mumbai: The bankruptcy court has admitted an insolvency plea against real estate developer Rajesh Landmark Projects — a subsidiary of Mumbai-based realtor Rajesh Lifespace — by IREP Credit Capital, a Mumbai-based non-banking financial company (NBFC).

The Mumbai Bench of the National Company Law Tribunal (NCLT) has appointed Bhruvish Amin as the insolvency professional to undertake the Corporate Insolvency Resolution Process (CIRP).

IREP Credit Capital has sought to invoke the provisions of Section 7 of Insolvency and Bankruptcy Code (IBC) Rules, 2016 for a resolution of an unresolved financial debt of nearly ₹27 crore. The dues include secured and redeemable non-convertible debentures (NCDs) worth ₹18 crore issued by the developer, redemption premium, interest, and penal interest.

The developer had privately placed these debentures with IREP Credit Capital in September 2018. As per the terms of the debentures, Rajesh Landmark Projects was liable to pay a quarterly interest to the financial creditor and all the payments due thereafter, along with a default interest at the rate of 2% per annum over and above the interest rate from the date of default till the default is cured.

According to IREP Credit Capital, the developer defaulted on the payment of interest for the quarter ended September 30, 2019 and all subsequent payments thereafter.

Following the default, both the NBFC and the developer agreed to file certain consent terms in a bid to settle the matter in October 2020. The developer unconditionally acknowledged that it is liable to pay an outstanding amount of nearly ₹23 crore, along with interest and premium accrued up to the date of payment, to the lender. As per the consent terms, Rajesh Landmark Projects was to make payments in July 2021, August 2021 and September 2021.

Advocate Rohit Gupta, along with Krushi Barfiwala of law firm Parinam Law Associates, while appearing for the NBFC argued that despite clear consent terms filed in the tribunal on January 7, 2021, the developer failed to comply.

ADVERTORIAL

Thank You Indian Plastics Industry **YIZUMI | HPM**

The Indian Market has Become the Largest Single Market Overseas for Yizumi HPM

1,500 Injection Molding Machines Sold

80,000 Square Meters Factory

Our Commitment to India

Thank You, Gujarat

Mr. Ramesh Varadan, Director, Yizumi Precision, Machinery (India) Pvt. Ltd. meets Shri Bhupendra Patel, Chief Minister of Gujarat

Strengthening development in the Indian market to help achieve Yizumi HPM's global strategic objectives. As an important injection molding machine manufacturer in the industry.

In its first year of operation, the value of Yizumi HPM India factory shipment exceeded Rs 400 million. Yizumi HPM India factory has produced and sold 1,500 injection molding machines. The Indian market has emerged as the largest overseas single market for Yizumi HPM.

As the business of the Yizumi HPM India factory expanded, given its firm confidence in the continued development in the Indian market, with its strategic global industrial layout in mind, Yizumi HPM acquired a lot of land in Gujarat to build its own modern plant.

The new plant is located in the GIDC Industrial Park in Gujarat State covering an area of 80,000 plus square meters, current build up is 200,000 square feet in the first phase, which will be extended further, when it is fully completed the annual output is expected to be 10 billion rupees.

Inaugurated by Shri Jagdishbhai Vishwakarma Panchal, Minister of state in Cottage Industries, Minister of state in Cooperation, Minister of Protocol, Industries, Salt-Industries and Forest, Environment & Climate Change, Minister of state, Roads and Buildings

New Plant Inaugurated by Shri Jagdishbhai Vishwakarma Panchal, Minister of State Gujarat

Plot No 1062-1063, Sonand II GIDC, Sonand, 362170 Ahmedabad, Gujarat India

जगात कौतुक... घरात चिंता

भारतीय अर्थव्यवस्थेची नाणेनिधीकडून स्तुती; मात्र देशात आयआयपीत घट, चलनवाढीत भर

वृत्तसंस्था, वाशिंग्टन

अर्थिक विकासाच्या दृष्टीने जगभरात मंदीसदृश वातावरण असताना, भारतीय अर्थव्यवस्थेलाही याचा फटका बसत असताना, भारताची अर्थव्यवस्था तुलनेने चांगल्या प्रकारे वाटचाल करत आहे, या शब्दांत आंतरराष्ट्रीय नाणेनिधीने भारताचे मंगळवारी कौतुक केले.

क्रोनाच्या दोन्ही लाटा आणि त्यापाठोपाठ सुरु झालेले रशिया-युक्रेनयुद्ध यामुळे जगभरात अर्थिक जगतात मंदीचे वातावरण आहे. मात्र याला अपवाद वाटावा अशा गतीने भारतीय अर्थव्यवस्था दमदार वाटचाल करत आहे. याची दखल घेत आंतरराष्ट्रीय नाणेनिधीने मंगळवारी भारताचे मुक्तकठाने कौतुक केले. देशातील औद्योगिक उत्पादन निदेशांक (आयआयपी) आणि किरकोळ चलनवाढ यांच्या वृद्धीची प्रसिद्ध झालेल्या आकडेवारीने मात्र नाणेनिधीच्या कौतुकाच्या बोलोनी झालेल्या आनंदावर विरजण पडले. जगभरात भारतीय अर्थव्यवस्थेचे, केंद्र सरकारचे तसेच रिझर्व्ह बँकेचे कौतुक होत असताना घरात मात्र चिंतेचे वातावरण पसरले आहे.

देखभाल खर्च सर्वांना समानच

सोसायटी

अंड रोहित एरंडे, विधिवत

आमच्या सोसायटीमध्ये १, २ व ३ वीएचके असे वेगवेगळे फ्लॅट्स आहेत. आमचा फ्लॅट ३ वीएचके आहे आणि आमच्याकडून फ्लॅटच्या एरियाप्रमाणे देखभाल खर्च (मेटेनन्स) घेतला जातो. ज्याचा फ्लॅट मोठा त्याने जास्त खर्च सोसायटीचा, असे आम्हाला सांगितले जाते आणि काही विचारले की सोसायटीने उराव केला आहे असे उत्तर दिले जाते. तरी ह्या बाबतीत कायदा काय आहे हे कृपया सांगावे?

- एक चाचक, पुणे. देखभाल खर्च (मेटेनन्स) किती आकारावा हे उरावण्याचा अधिकार सोसायटीला नकोच आहे. मात्र तो देखभाल खर्च सर्वांना समान असावा हे कायदा सांगतो. निवासी असो वा व्यावसायिक, पहिल्या मजल्यावर परिणाम म्हणून देशात गुंतवणूक करी होण्याची भीती आहे. देशाच्या अर्थव्यवस्थेची गती मंदावण्याची भीती आहे.

निकालात देखील मुंबई उच्च न्यायालयाने निवासी आणि व्यावसायिक सदिकांमध्ये भेद करता येणार नाही असे नमूद करून व्यावसायिक दुकानदारांकडून जादा दरात घेत असणारा देखभाल खर्च रद्द ठरवला. त्यामुळे तुमच्या सोसायटीमध्ये देखभाल खर्च सर्वांना समानच आकारला गेला पाहिजे अन्यथा तुम्हाला सोसायटीविरुद्ध कायदेशीर कारवाई करणे भाग आहे. सोसायटीमध्ये सिव्किंग फंड, सोसायटी इमारतीचा दुरुस्तीचा खर्च इ. फ्लॅटच्या एरियाप्रमाणे आकारले जाताना, तर प्रॉपर्टी टॅक्स देखील फ्लॅटच्या एरिया आणि रहिवसी / व्यावसायिक वापर ह्याप्रमाणे महानगर पालिकांकडून आकारला जातो. कुठले खर्च समान आणि कुठले एरियाप्रमाणे आकारले जाऊ शकतात ह्यासाठी आदर्श उपविधेमध्ये तरतूद केलेली आहे. फक्त अपार्टमेंट असोसिएशनमध्ये देखभाल खर्च, हे फ्लॅटच्या एरियाप्रमाणे आकारले जाताना.

सोसायटीचे उपविधी, उराव किंवा कमिटी हे कायद्यापेक्षा मोठे नसतात. जादा मेटेनन्स, जादा ट्रान्सफर फी किंवा ना वापर शुल्क आकारण्यासाठी सोसायटीच्या एकसमान वचव दिसून येतो की, आमच्या उपविधीमध्ये ह्याबाबत तरतूदी आहेत आणि उपविधी उपनिबंधकांनी मान्य केले आहेत किंवा जनरल बॉडीने बहुमताने तसा उराव पास केले आहे. अर्थात असे वेगळी वचव न्यायालयात टिकत नाहीत. कारण उपनिधाय / उराव किंवा सोसायटी कमिटी हे कधीही कायद्यापेक्षा मोठे असू शकत नाही, असे अनेक निकालांमधून आजवर स्पष्ट झाले आहे.

किरकोळ महागाई वाढली

वृत्तसंस्था, नवी दिल्ली

खाद्यपदार्थांच्या किमती वाढल्यामुळे सप्टेंबर महिन्यात किरकोळ (रिटेल) महागाई वाढली आहे. बुधवारी जाहीर करण्यात आलेल्या अधिकृत आकडेवारीनुसार, सप्टेंबर महिन्यात रिटेल चलनवाढ ७.४१ टक्के वाढली गेली आहे. रिझर्व्ह बँकेने सहनशील किरकोळ चलनवाढीची कमाल मर्यादा ६ टक्के असल्याचे जाहीर केले होते. मागील नऊ महिन्यांपासून किरकोळ चलनवाढ ६ टक्क्यांपेक्षा अधिक नोंदवली जात आहे. रिटेल चलनवाढ ही ग्राहक किंमत निर्देशांकावर (सीपीआय) आधारित असते. सप्टेंबर महिन्यात हा सीपीआय वाढून ७.४१ टक्के नोंदवला गेला आहे.

रिझर्व्ह बँकेची जबाबदारी

किरकोळ चलनवाढ सातत्याने ६ टक्के या सहनशील किरकोळ चलनवाढीपेक्षा अधिक होत असल्यामुळे आता रिझर्व्ह बँकेला केंद्र सरकारला त्याबाबत स्पष्टीकरण घ्यावे लागणार आहे. रेपो दरात रिझर्व्ह बँकेने मागील काही महिन्यांत आढाव्यामध्ये वाढ करून बाजारातील खेड्या पैसा कमी केला आहे. परंतु असे करणे विशिष्ट मर्यादितपणे शक्य आहे. त्यामुळे पतधोरणाच्या आगामी दैमासिक आढाव्यात पुन्हा दावाढ करणे रिझर्व्ह बँकेला जबाब आहे.

औद्योगिक उत्पादन १८ महिन्यांच्या नीचांकी

वृत्तसंस्था, नवी दिल्ली

देशात औद्योगिक उत्पादनात सातत्याने घट होत आहे. यासंदर्भात आगस्ट महिन्यातील औद्योगिक उत्पादन निदेशांक (आयआयपी) केंद्रीय सांख्यिकी व उपक्रम मंत्रालयाकडून बुधवारी जाहीर करण्यात आला. यानुसार, आगस्ट महिन्यात आयआयपी २.२ टक्के घटलेला होता. आगस्ट २०२१मध्ये तो ०.८ टक्के नोंदवला गेला आहे. मागील १८ महिन्यांत हा आयआयपीचा नीचांक आहे.

आयआयपीची वाटचाल

फेब्रुवारी २०२१मध्ये आयआयपी आक्रसत ३.२ टक्के झाला होता. देशात त्याच्या फॉलोअर्सची संख्या १० हजारांच्या खाली आली आहे. फेब्रुवारीत त्याच्या निमाग केली असून याने माझे जकटपस नऊ लाख फॉलोअर्स नष्ट केले. आता किनाऱ्यावर केवळ साधारण नऊ हजार उरले आहेत. मला फेब्रुवारीचा विनाद आवडतो,' असे ट्वीट बॉलाददेशी लेखिका तस्तिमा नसरिन यांनी केले.

क्षेत्रनिहाय वाढ-घट

कारखानदारी: आगस्ट २०२१मध्ये या क्षेत्रात ११.१ टक्के वाढ नोंदवली होती. मात्र, यावर्षी आगस्टमध्ये हे क्षेत्र ०.७ टक्के आक्रसले. ऊर्जा: गेल्यावर्षी १६ टक्के वाढ दाखवणाऱ्या या क्षेत्रात यावर्षी आगस्टमध्ये केवळ १.४ टक्के वाढ नोंदवली. खाणकाम: या उद्योगाची वाढ गेल्यावर्षी मोठ्या प्रमाणावर झाली होती. त्यावेळी या क्षेत्राने २३.३ टक्के वाढ नोंदवली होती. यावर्षी हे क्षेत्र ३.९ टक्के आक्रसले आहे. यंत्रसामग्री: आगस्टमध्ये ५ टक्के वाढ झाली. मात्र हे क्षेत्र गेल्यावर्षी २० टक्क्यांनी वाढले होते. प्राथमिक वस्तु: गेल्यावर्षी आगस्टमध्ये १६.९ टक्क्यांनी वाढ नोंदवणाऱ्या या क्षेत्राने यंदा १.७ टक्के वाढ नोंदवली आहे.

फेसबुक फॉलोअर्सची संख्या रोडावली

वृत्तसंस्था, नवी दिल्ली

मेटाद्वारे संचालित फेसबुकच्या अनेक वापरकर्त्यांनी अज्ञात कारणांनी आपले वतुंतांश फॉलोअर्स गमावल्याची तक्रार केली आहे. खुर मेटाचे संस्थापक आणि मुख्य कार्यकारी अधिकारी (सीईओ) मार्क झुकरबर्ग यांनी ११.९ कोटींहून अधिक फॉलोअर्स गमावले आहेत.

यांमुळे त्यांच्या फॉलोअर्सची संख्या १० हजारांच्या खाली आली आहे.

फेसबुकने त्यांनी निमाग केली असून याने माझे जकटपस नऊ लाख फॉलोअर्स नष्ट केले. आता किनाऱ्यावर केवळ साधारण नऊ हजार उरले आहेत. मला फेब्रुवारीचा विनाद आवडतो,' असे ट्वीट बॉलाददेशी लेखिका तस्तिमा नसरिन यांनी केले.

थोडक्यात

भारताचे कर्जप्रमाण अधिक

वाशिंग्टन : चालू वर्षाअखेर भारताच्या जीडीपीच्या तुलनेत देशाचे कर्जाचे प्रमाण (गुणोत्तर) सुमारे ८४ टक्के राहिल, अशी भीती आंतरराष्ट्रीय नाणेनिधीने व्यक्त केली आहे. नाणेनिधीनुसार, अनेक उदयोन्मुख अर्थव्यवस्थांमध्ये भारताचे कर्जाचे प्रमाण अधिक आहे. परंतु त्याचवेळी हे कर्ज फेडणे जाणारे असल्यामुळे ते तितकेसे स्थायी स्वरूपाचे नाही, असेही निरीक्षण नाणेनिधीने नोंदवले आहे. कर्जाचा डोंगर कमी करण्यासाठी चालू आर्थिक वर्षाच्या मध्यात निरिचत उद्दिष्टे भारताने निर्धारित करावीत, असा सल्ला नाणेनिधीचे विभागीय संचालक पावलो मावरो यांनी दिला आहे.

गृहकर्जदर ८.४० टक्के

मुंबई : सणसाठी ऑफर म्हणून रिटेल बँक आणि एचडीएफसी बँक यांनी ८.४० टक्के दराने गृहकर्ज उपलब्ध करून देण्याचे जाहीर केले आहे. गृहकर्जावर सध्या ९.५ वेसिस पॉइंटची सवलत देत असल्याचे 'एसबीआय'ने निवेदनात म्हटले आहे. बँकेने एकूण सहा लाख कोटी रुपयांचे गृह कर्ज वितरण केले आहे. गृहकर्जदरातील सवलत ३१ जानेवारी २०२३पर्यंत लागू राहिल, असेही निवेदनात नमूद आहे. 'एचडीएफसी'ने व्याजदरात २० वेसिस पॉइंटची सवलत दिली आहे.

'सेमीकंडक्टर'साठी मंजुरी

बंगळूरु : 'केंद्र सरकार ३० ते ६० दिवसांत सेमीकंडक्टर प्रकल्पांचे प्रस्ताव मंजूर करील,' अशी ग्वाही केंद्रीय इलेक्ट्रॉनिक्स आणि माहिती तंत्रज्ञान राज्यमंत्री राजीव चंद्रशेखर यांनी बुधवारी येथे दिली. 'आयईएसए व्हिजन समिट'मध्ये ते बोलत होते. 'गेल्या आठ-नऊ महिन्यांत देशातील सेमीकंडक्टर उत्पादनविषयक स्थितीमध्ये लक्षणीय बदल झाला आहे. आतापर्यंत सरकारकडे पाच कंपन्यांनी सेमीकंडक्टर उत्पादनासाठी प्रस्ताव सादर केले आहेत. त्यांचे एकत्रित गुंतवणूक मूल्य १.५३ लाख कोटी रुपये आहे,' असेही चंद्रशेखर म्हणाले.

विलीनीकरण होणारच

नवी दिल्ली : पोन्कीआ आयर्नाक्समध्ये विलीन करण्यास बुधवारी पीव्हीआरच्या भागधारकांनी मंजुरी दिली. राष्ट्रीय कंपनी विधी लयादाने दिलेल्या आदेशानुसार पीव्हीआरच्या संचालक मंडळाने विलीनीकरणबाबत मते जाणून घेण्यासाठी भागधारकांची विशेष सभा बोलावली होती. या बैठकीत विलीनीकरण प्रस्तावाला ९९ टक्के भागधारकांनी संमती दिली. यापूर्वी २७ मार्च रोजी दोन्ही कंपन्यांनी एकत्र येत देशात सर्वात मोठे मॉल्टिप्लेक्स जाळे निर्माण करण्याची इच्छा प्रदर्शित केली होती. त्यानुसार, जून महिन्यात पीव्हीआर आणि आयर्नाक्स यांना मुंबई शेअर बाजार आणि राष्ट्रीय शेअर बाजार यांच्याकडून विलीनीकरणबाबत हिरवा कंदील मिळाला होता.

रुपया पुन्हा घसरला

नवी दिल्ली : विदेशी गुंतवणूकदारांकडून देशातील गुंतवणूक काढून घेण्याचा सपाटा सुरुच राहिल्यामुळे भारतीय रुपया बुधवारी १२ पैशांनी घसरला. यामुळे एका अमेरिकी डॉलरसाठी ८२ रुपये ३३ पैसे मो जावे लागले. मंगळवारी रुपया १९ पैशांची उसळी घेत ८२.२१ वर बंद झाला होता. सहा चलनांचा बनलेला डॉलर निदेशांक ०.०१ टक्के घसरत ११३.२१ वर बंद झाला. आंतरराष्ट्रीय तेल बाजारात ब्रेन्ट क्रूडचा दर ०.३९ टक्के वाढून प्रतिक्रिल ९४.६६ डॉलर नोंदवला गेला.

थोडक्यात

ग्रामविकासाची विकासकामे रद्द
 मुंबई: सिंदे-फडणवीस सरकारने ग्रामविकासासाठी शासकीय कामांचा रद्द करणारी नवीन कायदा पारित केला. ग्रामविकास खात्यांतर्गत स्थगित दिलेली ग्रामीण भागातील विकासकामे थेट रद्द करणाऱ्या नव्या कायद्यात आला आहे. सरकार नियमांनुसार १ एप्रिल २०२१पासून मंजूर केलेल्या कामांपैकी ज्या कामांचे कार्यदिश देण्यात आलेले नाहीत किंवा कार्यदिश देऊन कामे सुरू झाली नाहीत, अशा सर्व कामांना स्थगित देण्यात आली होती. अशा कामांची यादी सर्व जिल्हा परिषदा व सार्वजनिक बांधकाम मंडळांकडून आता ग्रामविकास विभागाकडे प्राप्त झाली आहेत.

तुमानविरोधात याचिका नागपूर: शहरातील एका सरकारी भिंतीवर अवैध बांधकाम झाले असून त्याविरोध मुंबई उच्च न्यायालयात जनहित याचिका दाखल करण्यात आली आहे. यात सुझमंत्रि एकनाथ सिंदे यांच्या गटाचे रामटेक लोकसभा मतदारसंघाचे खासदार कुपाल तुमान यांच्यावरही आरोप करण्यात आले आहेत. नागपूर खंडपीठाचे न्यायमूर्ति डी. सुनील शर्मा आणि अनिल पानसे यांच्या खंडपीठाने तुमान, राज्य सरकार, जिल्हा प्रशासन, सार्वजनिक बांधकाम विभाग आणि नागपूर सुधार प्रयासला नोटीस बजावल्या आहेत.

वेळगावात मोर्चा
 वेळगाव: वेळगाव जिल्हातील विविध गावांतून आलेल्या हजारो आशा संघिकांनी विविध मागण्यांसाठी जिल्हाधिकारी कार्यालयावर मोर्चा काढला. मानधन १२ हजार रुपये करावे, तीन महिन्यांतून एकदा तक्रार निवारण बैठक घेऊन समस्यांचे निवारण करावे, दरमहा १० तारखेच्या आत मानधन मिळावे, अशा मागण्या जिल्हाधिकार्यांना दिलेल्या निवेदनात केल्या आहेत.

तीन सावकार अटकेत सटणा: शहरातील 'धनश्री अलंकार'चे संचालक धनंजय ज्ञानखेडे यांच्या आत्महत्येप्रकरणी गोव्या दोन महिन्यांपासून परागंदा असलेल्या सहा पैकी तीन जण सटणा पोलिसांत दाखल झाले आहेत. पोलिसांनी बुधवार या तिघांना सटणा न्यायालयासमोर उभे केले असता त्यांना सोमवारपर्यंत पाच दिवसांचे पोलिस कोठडी सुनावण्यात आली आहे.

माओवाद्यांचा कट गडचिरोलीत उधळला

पोलिसांकडून स्फोटकांचा साठा जात

माओवादिवािरोधी लढा देणाऱ्या जवानांना लक्ष्य करण्यासाठी दडवून ठेवलेला स्फोटकांचा साठा गडचिरोली पोलिस विभागाच्या जवानांनी जप्त केला. हा साठा वेदवैद्य जन्म करणाऱ्या आल्याने माओवाद्यांच्या घातपाताचा कट उधळला गेला आहे. ही कारवाई कुठेरही उपविभागांतर्गत येणाऱ्या पोमके मालेबाडा हद्दीतील लडवुंडा (हेटवळसा) जंगल परिसरात करण्यात आली. माओवादी सरकारविरोधी घातपातात कारवाया करण्यासाठी शस्त्र आणि स्फोटकांचा वापर करतात. हा साठा जंगलात पुरून ठेवतात. हे साहित्य माओवादी नगल सवाह आणि घातपात

दरेवाडीची शाळा सुरू

नाशिक जिल्ह्यात विद्यार्थ्यांच्या आंदोलनाला मिळाले यश

म. टा. वृत्तसेवा, नाशिक
 नियमांच्या कचाट्यात सापडून कुलूप लावण्याच्या टप्प्यावर आलेल्या शाळेत पुन्हा एकदा शिक्षणाचे धडे गिरविणे सुरू होताच शाळेसाठी दाहो फोडणारे निरास चेहेरे आनंदाने खुलेले. याच शाळेसाठी चिमुकल्यांनी दरेवाडी (इगतपुरी) ते नाशिक अंतर पायी तुडवत प्रशासनाला शाळा सुरू ठेवण्यासाठी साकडे घातले होते. त्यांच्या प्रयत्नांना अखेर यश आले. एकीकडे आपण स्वतंत्रचा अमृतमहोत्सव साजरा करत असताना दुसरीकडे आदिवासी पाह्यांवरील मुलांना मात्र शिक्षणासाठी प्रशासनाचे उजेर झिजवावे लागत असल्याचे वास्तव यामिभित्ताने पुन्हा एकदा समोर आले. इगतपुरी तालुक्यातील दरेवाडी येथील एक महिन्यापासून बंद असलेली

दरेवाडी (जि. नाशिक) येथील जिल्हा परिषदेची शाळा बुधवारपासून पुन्हा सुरू झाली. शिक्षणाधिकार्यांनी या शाळेत जाऊन पाहणी केली.

जिल्हा परिषदेची शाळा अखेर बुधवार पुन्हा सुरू झाली. वर्गामध्ये विद्यार्थ्यांच्या किलविलाट सुरू झाला. विद्यार्थी व पालकांनी केलेल्या संघर्षाला यश आल्याने गावकऱ्यांनीही याबाबत सभाधान व्यक्त केले. काठवले येथील भाम धरणगावसाठी पुनर्वसन दरेवाडी (खालची) आणि (बकची) असे दोन ठिकाणी झाले. पुनर्वसन झाल्यामुळे वरती ४० कुटुंबे व खाली ४० कुटुंबे असे विभाजन झाले. मात्र या वस्तूला मिळणाऱ्या सुविधांकडे पुनर्वसन विभाग

‘अडीच वर्षात तुम्ही कसे वागलात?’

म. टा. प्रतिनिधी, नाशिक
 ‘दसरा मेळाव्यामध्ये पंतप्रधानांची नक्कल करून मानहानी केल्याचा आरोपवाचून शिवसेनेच्या पदाधिकारी सुयमा अंधारे आणि इतर राजकीय नेत्यांवर दाखल झालेले गुन्हे हे राजकीय दबावपोटी असल्याची ओरड करता. तुमची सत्ता असताना अडीच वर्षे तुम्ही कसे वागलात,’ याचे आत्मवरीक्षण करा, असा सल्ला उच्च आणि तंत्रशिक्षणमंत्री चंद्रकांत पाटील यांनी विरोधकांना दिला. एका कार्यक्रमासाठी उपस्थित असताना त्यांनी पत्रकारांच्या प्रश्नांना उत्तरे दिली. विविध मुद्द्यांवर त्यांनी मते मांडली. पाटील म्हणाले, ‘महाविकास आघाडीची सत्ता असताना राज्यभरात एखाद्या नागरिक अथवा विरोधी पक्षाच्या कार्यकर्त्यांनी साधो सामाजिक माध्यमांवर अभिव्यक्ती केली तर तेदोखील जनतेला तुमचे सरकार कसे वागले हे तुम्ही विस्मरलात का? मला अंधारे व इतरांवर दाखल झालेल्या गुन्हांवर बोलायचे नाही. मात्र, तुमचा सरकाराचे कारकीर्द विस्मरून कसे चालेले?’ ‘ओबीसी समाजास असणाऱ्या सर्व सवलती मराठा समाजास उल्लेख करून देण्याचा आमचा प्रयत्न सुरू आहे,’ असेही पाटील म्हणाले.

मुंबई पोलिसांची पासपोर्ट प्रणाली हॅक

पोलिसांचे आयडी, पासवर्ड वापरून अर्जांनाही मंजूरी

मुंबई पोलिसांच्या विशेष शाखेची प्रणाली हॅक करून पासपोर्ट अर्जांना मंजूरी देण्यात आल्याचा धक्कादायक प्रकार समोर आला आहे. पासपोर्टसाठी पडताळणी करणाऱ्या पोलिसांचे यूजर आयडी आणि पासवर्ड चोरून त्याआधारे या गोपनीय प्रणालीचा वापर करून ही मंजूरी दिल्याचा संशय आहे. या प्रकरणी विशेष शाखेच्या वतीने करण्यात आलेल्या तक्रारीवरून आझाद मैदान पोलिस ठाण्यात गुन्हा दाखल करण्यात आला आहे. पासपोर्ट मिळविण्यासाठी अर्ज केल्यानंतर तो अर्ज ऑनलाइनद्वारे वेगवेगळ्या विभागांकडे मंजुरीसाठी पाठवला जातो. पासपोर्ट सेवा या वेबसाइटच्या आधारे आपल्याला आपण केलेल्या अर्जाचा तपशील आणि अहवाल पाहता येतो. अर्जदाराची

संजय राऊत यांचे निकटवर्तीय अडचणीत

पाटकर यांच्याबाबतचा तपास आर्थिक गुन्हे शाखेकडे

म. टा. खास प्रतिनिधी, मुंबई
 शिवसेना खासदार संजय राऊत यांचे निकटवर्तीय सुजित पाटकर यांच्या अडचणीत आणखी वाढ होण्याची शक्यता आहे. करोनाकाळात ३८ कोटी रुपयांचा घोटाळा केल्याप्रकरणी आझाद मैदान पोलिस ठाण्यात दाखल करण्यात आलेल्या गुन्हा तपासकांसाठी आर्थिक गुन्हे शाखेकडे वर्ग करण्यात आला आहे. राऊत मोठी असल्याने हा गुन्हा आर्थिक गुन्हे शाखेकडे सोपविण्यात आला आहे. पाटकर यांनी मुंबईतील वेगवेगळ्या जम्वी फ्रीडम सेटरमध्ये जून २०२० ते मार्च २०२२ या कालावधीत वेगवेगळी सेवा पुरविण्यासाठी काढलेल्या निविदा मिळविण्यासाठी लाईफलाईन रुग्णालय मॅनेजमेंट सर्व्हिसेस फर्म स्थापन केली.

दोन महिन्यांच्या चिमुकलीचा खून

जळगाव: चाळीसगाव तालुक्यातील पिंप्री प्र. दे. येथील इंदिरागंग परिसरात महिलेला कोयत्याचा धाक दाखवून दोन महिन्यांच्या चिमुकलीचा रूमालाने तोंड दाबून खून केल्याची घटना घडली. संशयितांना घरात घुसून कोयत्याचा धाक दाखवून वियार्थी खात आईसमोरच चिमुकलीचा खून केला. अरविंद कैलास पाटील असे संशयिताचे नाव आहे. त्याचाविरोधात खुनाचा गुन्हा दाखल झाला आहे. गुंजन सोनू ठाकरे (कोडी) (वय २७) ही महिला पत्नी, मुले व आजोबांसह पिंप्री प्र. दे. गावात राहते. मंगळवारी (दि.११) मध्यरात्री दोन वाजता शोभना यांना घरात आवाज आला. त्यांना मागाच्या दारातून अरविंद पाटील ही व्यक्ती घरात येताना दिसली. त्याने शोभना यांच्याजवळ येत कोयत्याचा धाक दाखविला. आरडाओरड करू नको, तुला जिवंत सोडणार नाही, अशी धमकी देत पातेल्यातील वियार्थी ताटात घेऊन खाण्यास सुरुवात केली. नंतर त्याने खिशातील रूमाल काढून बालिका गुंजन हिच्या तोंडावर जेरात दाबून ठेवला.

अनंत शिरगावकर यांचे निधन

अभ्यास इतिहास संशोधक हरपाल

चिपळूण: कोकणच्या इतिहासाचा ज्ञानकोश मानले जाणारे, नामवंत इतिहास संशोधक आणि पुराणवस्तु संग्रहाक अनंत शिरगावकर यांचे येथील 'अपरान्त' रुग्णालयात मंगळवारी रात्री हृदयविकारात निधन झाले. ते ९३ वर्षांचे होते. प्रकृती अस्वास्थ्यामुळे दाहोळमधील २० वर्षांचे वास्तव्य संपवून नोव्हेंबर २०१८ पासून शिरगावकर हे चिपळूण तालुक्यातील शिरगाव येथे आपल्या कन्येकडे वास्तव्यस होत. आठवडाभरापासून पासून ते चिपळूण-शिरगाव मार्गावरील मालखर येथे मुक्कामी होते. मंगळवारी रात्री चिपळूणमधील

'अपरान्त'च्या मागोव्याचा वेध

एकविसाव्या शतकात, कोकणाला आठ हजार वर्षांपूर्वीचा प्राचीन इतिहास असल्याचे पुरावे उपलब्ध झाले होते. असे असतानाही काही दशकांपूर्वी, 'कोकणला प्राचीन इतिहास नाही', असे म्हणणे शासकीय तज्ञ मॉडल असताना नऊ तामपट्टीचा शोध घेऊन अपरान्ताने ते म्हणणे आपल्या मेहनतीने खोडून काढले होते. कोकणात 'अपरान्त' हा शब्द रूढ करण्यात त्यांचे मौलिक योगदान होते. 'अपरान्त' रुग्णालयात त्यांचे प्राणज्योत मालवली. त्यांच्या परचायत सून, मुली, जावई आणि नाववंदे असा परिवार आहे. शिरगावकर यांचा जन्म पाच सप्टेंबर १९३० रोजी गृहगम तालुक्यातील विसापूर येथे झाला. त्यांचे औपचारिक शालेय शिक्षण पार झाले नव्हते. मात्र, त्यांच्यात संशोधनवृत्ती क्लिप्त पद्धतीची होती. सन १९६०मध्ये दाहोळला वास्तव्यास आल्यावर अपरान्तच्या संशोधन आणि संग्रहाक वृत्तीला प्रोत्साहन मिळाले. अपरान्तच्या साधनांसाठी ५०हून अधिक वर्षे दहाणापासून कारवायपर्यंत भावपटू केली. दुर्मीळ वस्तूंचा संग्रह केला. वैशिष्ट्यपूर्ण कार्यक्रमांचे आयोजन, वागण्यातील वक्तृशरीरपणा हे त्यांच्या कार्यपद्धतीतील आवर्जून दखल घेण्याजोगे गुण होते. आपल्या अभ्यास वृत्तीने ते कोकण इतिहास संशोधनाच्या माध्यमातून जगभर पोहोचले होते. अपरान्त १४ पुस्तकांचे लेखन केले. आपल्या कामाला योग्य दिशा मिळावी म्हणून सन१९८३ मध्ये त्यांनी 'सागरपुत्र विद्या विकास संस्था' स्थापन केली होती. याही वयात अपरान्तचे वाचन, लेखन, चिंतन सुरू होते. शिवकाळ आणि पेशवाई या दोन विषयांवर स्वतंत्र दोन पुस्तके लिहिण्याचे विचार सुरू होते. त्यासाठीचा संदर्भाची जुळवाजुळव सध्या ते करीत होते.

अमली पदार्थाची तस्करी पाकिस्तानातून

मुंबईसह पश्चिम किनारपट्टीवर सातत्याने जप्त होणाऱ्या अमली पदार्थांच्या साठ्यांमध्ये पाकिस्तानचा थेट संबंध असल्याचे तपासत समोर आले आहे. यातून नार्कोटिक्स कंट्रोल ब्युरोसह (एनसीबी), महसूल गुप्तचर संचालनालयाची (डीआरआय) डोकदुडी वाढली आहे. पाकिस्तानातील हजी सलीम हा अमली पदार्थ तस्करी करणाऱ्या टोळीचा म्होरक्या असून, त्याचा तपास संस्थानकडून शोध सुरू आहे. पश्चिम किनारपट्टीवर मागील

जपतीत सहाशे टक्के वाढ
 दरम्यान, एनसीबीच्या मुंबई संचालनालयाचे या वर्षी पहिल्या नऊ महिन्यांत (जानेवारी-सप्टेंबर) तब्बल ११ हजार ३०० किलो अमली पदार्थ जप्त केल्याचे म्हटले आहे. हा आकडा २०२१च्या तुलनेत सहाशे टक्क्यांहून अधिक आहे. मागील वर्षी याच कालावधीत या संचालनालयाने १,७८० किलो अमली पदार्थ जप्त केले होते. आतापर्यंत ५८ दलांला अटक झाली आहे. तर मागील वर्षी या कालावधीत २४० दलात अटक केले होते, असे एनसीबीने म्हटले आहे.
