Independent Auditor's Report

To the Members of DELTA PLEASURE CRUISE COMPANY PRIVATE LIMITED

REPORT ON THE FINANCIAL STATEMENTS

We have audited the accompanying financial statements of DELTA PLEASURE CRUISE COMPANY PRIVATE LIMITED ("the Company"), which comprise the Balance Sheet as at 31st March, 2018, the Statement of Profit and Loss (including Other Comprehensive Income), the Statement of Changes in Equity and the Cash Flow Statement for the year then ended, and a summary of the significant accounting policies and other explanatory information.

MANAGEMENT'S RESPONSIBILITY FOR THE FINANCIAL STATEMENTS

The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these financial statements that give a true and fair view of the state of affairs (financial position), profit or loss (financial performance including other comprehensive income), cash flows and changes in equity of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards ("Ind AS") specified under Section 133 of the Act, read with relevant rules issued thereunder.

This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

AUDITOR'S RESPONSIBILITY

Our responsibility is to express an opinion on these financial statements based on our audit.

We have taken into account the provisions of the Act, the accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the Act and the Rules made thereunder.

We conducted our audit in accordance with the Standards on Auditing specified under Section 143(10) of the Act. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether these financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and the disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial controls relevant to the Company's preparation of the financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made by the Company's Directors, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on these financial statements.

OPINION

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India including Ind AS specified under Section 133 of the Act, of the state of affairs (financial position) of the Company as at 31st March, 2018, and its profit (financial performance including other comprehensive income), its cash flows and the changes in equity for the year ended on that date.

REPORT ON OTHER LEGAL AND REGULATORY REQUIREMENTS

1. As required by the Companies (Auditors' Report) Order, 2016 ("the Order") issued by the Central Government of India in terms of Sub-Section (11) of Section 143 of the Act, we give in "Annexure A", a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.
2. As required by Sub-Section 3 of Section 143 of the Act, we report that:
 - (a) we have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit;
 - (b) in our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books;

- (c) the financial statements dealt with by this report are in agreement with the books of account;
- (d) in our opinion, the aforesaid financial statements comply with the Ind AS specified under Section 133 of the Act, read with relevant rules issued thereunder;
- (e) on the basis of the written representations received from the directors and taken on record by the Board of Directors, none of the directors are disqualified as on 31st March, 2018 from being appointed as a director in terms of Section 164(2) of the Act;
- (f) we have also audited the internal financial controls over financial reporting (IFCoFR) of the Company as on 31st March 2018 in conjunction with our audit of the financial statements of the Company for the year ended on that date and our report dated April 20, 2018 as per Annexure B expressed an unmodified opinion; and
- (g) with respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:
- i. the Company, as detailed in Note 29 to the financial statements, has disclosed the impact of pending litigations on its financial position;
 - ii. the Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses;
 - iii. there were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Company.

ANNEXURE A TO THE INDEPENDENT AUDITOR'S REPORT

[Referred to in paragraph 1 under 'Report on Other Legal and Regulatory Requirements' in the Independent Auditor's Report of even date to the members of DELTA PLEASURE CRUISE COMPANY PRIVATE LIMITED on the financial statements for the year ended 31st March, 2018]

- (i)
 - (a) The Company has maintained proper records showing full particulars, including quantitative details and situation of fixed assets
 - (b) The fixed assets have been physically verified by the management during the year and no material discrepancies were noticed on such verification. In our opinion, the frequency of verification of the fixed assets is reasonable having regard to the size of the Company and the nature of its assets.
 - (c) The title deeds of all the immovable properties (which are included under the head 'Property, plant and equipment') are held in the name of the Company.
- (ii) The inventory has been physically verified by the management during the year. In our opinion, the frequency of verification is reasonable. As informed, no material discrepancies were noticed on physical verification carried out during the year.
- (iii) The Company has not granted any loans, secured or unsecured to Companies, firms or other parties covered in the register maintained under Section 189 of the Act, hence the provisions of clause 3(iii) of the Order are not applicable to the Company.
- (iv) In our opinion, the Company has complied with the provisions of Section 185 of the Act. Further the Company is exempt from Section 186, accordingly, the provisions of clause 3(iv) of the Order relating to Section 186 is not applicable.
- (v) In our opinion and according to the information and explanations given to us, the Company has not accepted any deposits from the public within the provisions of Sections 73 to 76 of the Act and the rules framed there under. Accordingly, the provisions of clause 3(v) of the Order are not applicable to the Company.
- (vi) The Central Government of India has not prescribed the maintenance of cost records under Sub-Section (1) of Section 148 of the Act, in respect of Company's products/services. Accordingly, the provisions of clause 3(vi) of the Order are not applicable to the Company.
- (vii)
 - (a) The Company is generally regular in depositing with appropriate authorities, undisputed statutory dues including provident fund, employees' state insurance, income tax, sales tax, service tax, duty of customs, duty of excise, value added tax, cess and any other material statutory dues applicable to it.

And

According to the information and explanations given to us, no undisputed amounts payable in respect of including provident fund, employees' state insurance, income tax, sales tax, service tax, duty of customs, duty of excise, value added tax, cess and any other material statutory dues applicable to it, were outstanding, at the year end, for a period of more than six months from the date they became payable.

- (b) The dues outstanding in respect of income-tax, sales tax, service tax, duty of customs, duty of excise and value added tax on account of any dispute, are as follows:

Statement of Disputed Dues

Nature of the Statute	Nature of Dues	Amount Rs. In Lakhs	Period to which the amount relates	Forum where dispute is pending
Custom Act, 1962	Custom Duty	4.63	FY 2000-01	CESTATE, Mumbai
Goa Value Added Tax Act, 2005	VAT	1.96	FY 2011-12	Appellate Authority of Goa Commercial Taxes
Income Tax Act, 1961	Income Tax Penalty	212.35	FY 2011-12 to FY 2013-14	CIT(Appeals)

- (viii) The Company has not defaulted in repayment of loans or borrowings to any bank or financial institution or government during the year. The Company did not have any outstanding debentures during the year.
- (ix) The Company did not raise moneys by way of initial public offer or further public offer (including debt instruments). In our opinion, the term loans were applied for the purposes for which the loans were obtained.
- (x) During the course of our examination of the books and records of the Company, carried out in accordance with the generally accepted auditing practices in India, and according to the information and explanations given to us, we have neither come across any instance of fraud by the Company or any fraud on the Company by its officers or employees, noticed or reported during the year, nor have we been informed of any such instance by the management.
- (xi) The Company has not paid or provided any managerial remuneration; hence the provisions of clause 3 (xi) of the Order are not applicable to the Company.
- (xii) In our opinion, the Company is not a Nidhi Company. Therefore, the provisions of clause 3(xii) of the Order are not applicable to the Company.

- (xiii) As per the information and explanation given to us, all transactions entered into by the Company with the related parties are in compliance with 188 of Act, where applicable and the details have been disclosed in the financial statements etc., as required by the applicable Ind AS. Section 177 of the Act is not applicable to the Company.
- (xiv) The Company has not made any preferential allotment or private placement of shares or fully or partly convertible debentures during the year under review. Therefore, the provisions of clause 3(xiv) of the Order are not applicable to the Company.
- (xv) The Company has not entered into any non-cash transactions with directors or persons connected with him. Therefore, the provisions of clause 3(xv) of the Order are not applicable to the Company.
- (xvi) Based on the information and explanation given to us the Company is not required to be registered under Section 45-IA of the Reserve Bank of India Act, 1934.

Annexure B to the Independent Auditor's Report on the Internal Financial Controls under Clause (i) of Sub-Section 3 of Section 143 of the Companies Act, 2013 ("the Act")

In conjunction with our audit of the financial statements of DELTA PLEASURE CRUISE COMPANY PRIVATE LIMITED ("the Company") as of and for the year ended 31st March, 2018, we have audited the internal financial controls over financial reporting ("IFCoFR") of the Company of as of that date.

MANAGEMENT'S RESPONSIBILITY FOR INTERNAL FINANCIAL CONTROLS

The Company's Board of Directors is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") issued by the Institute of Chartered Accountants of India ("ICAI"). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

AUDITORS' RESPONSIBILITY

Our responsibility is to express an opinion on the Company's IFCoFR based on our audit. We conducted our audit in accordance with the Guidance Note and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Act, to the extent applicable to an audit of IFCoFR, and the Guidance Note issued by the ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate IFCoFR was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the IFCoFR and their operating effectiveness. Our audit of IFCoFR included obtaining an understanding of IFCoFR, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's IFCoFR.

MEANING OF INTERNAL FINANCIAL CONTROLS OVER FINANCIAL REPORTING

A company's IFCoFR is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's IFCoFR includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2)

provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

INHERENT LIMITATIONS OF INTERNAL FINANCIAL CONTROLS OVER FINANCIAL REPORTING

Because of the inherent limitations of IFCoFR, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the IFCoFR to future periods are subject to the risk that the IFCoFR may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

OPINION

In our opinion, the Company has, in all material respects, an adequate IFCoFR and such IFCoFR were operating effectively as at 31 March 2018, based on the IFCoFR criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of IFCoFR issued by the ICAI.

Delta Pleasure Cruise Company Private Limited
Notes the Financial Statement for the Year Ended 31st March, 2018

1 Statement of Significant Accounting Policies

(A) Company Overview

Delta Pleasure Cruise Company Private Limited, incorporated in the year 2000 under the provision of the Companies Act applicable in India. The Company operates at Goa, in Gaming and Hospitality Segment. The Company is subsidiary of Delta Corp Limited. The registered office of the company is located at Goa.

(B) a) Basis for Preparation of Financial Statements

i) Compliance with Ind AS

These standalone financial statements ("financial statements") have been prepared in accordance with the Indian Accounting Standards (hereafter referred to as the "Ind AS") as notified by the Ministry of Corporate Affairs pursuant to Section 133 of Companies Act, 2013 (the "Act") read with the Companies (Indian Accounting Standards (Ind AS) Rules, 2015 as amended and other relevant provisions of the Act and rules framed thereunder.

ii) Historical cost convention

The financial statements have been prepared on a historical cost basis, except certain financial assets and liabilities which are measured at fair values.

iii) Rounding of Amounts

All the amounts disclosed in the financial statements and notes have been rounded off to the nearest lakhs as per the requirement of Schedule III, unless otherwise states.

iv) Current and Non-Current classification

All assets and liabilities have been classified as current or non-current as per the Company's normal operating cycle (twelve months) and other criteria set out in the Schedule III to the Act

b) Property, Plant and Equipment (including Capital work-in-Progress)

Freehold land is carried at historical cost. Property, plant and equipment are stated at cost less accumulated depreciation and impairment losses, if any. Cost includes purchase price and expenditures directly attributable to bringing them into working condition for its intended use. Freehold land and capital work in progress are carried at cost, less accumulated impairment losses, if any are not depreciated.

Subsequent cost are included in the asset's carrying amount or recognized as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. The carrying amount of any component accounted for as a separate asset is derecognised when replaced. All other repairs and maintenance expenses are charged to the Statement of Profit or Loss during the reporting period in which they are incurred.

Depreciation on Property, plant and equipments is provided under the straight line method over the useful lives of assets as prescribed in Schedule II to the Companies Act 2013 ("Act"), and management believes that useful life of assets are same as those prescribed in Schedule II to the Act.

The residual values are not more than 5% of the Original cost of the asset. The assets residual values and useful lives are reviewed, and adjusted if appropriate, at the end of each reporting period.

Gain or losses arising from derecognition of Property, plant and equipment are measured as difference between the net disposal proceeds and the carrying amount of the assets and are recognized in the statement of profit and loss when the asset is derecognised.

c) **Intangible Assets**

Intangible Assets with finite useful lives that are acquired separately are stated at acquisition cost, net of recoverable taxes, trade discount and rebate less accumulated amortisation and accumulated impairment losses, if any. Such cost includes purchase price and any expenditure directly attributable to bringing the asset to its working condition for the intended use.

Subsequent cost are included in the asset's carrying amount or recognized as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably.

An intangible asset is derecognised on disposal, or when no future economic benefits are expected from use or disposal. Gains or losses arising from derecognition of an intangible asset, measured as the difference between the net disposal proceeds and the carrying amount of the asset, are recognised in profit or loss when the asset is derecognised of an intangible asset

Intangible assets are amortized over their respective individual estimated useful lives on a straight- line basis from date they are available for use. The estimated useful life of an identifiable intangible asset is based on number of factors including the effect of obsolesce, demand, competition and other economic factors and level of maintenance expenditures required to obtain the expected future cash flows from the assets.

d) **Leases**

Leases are classified as finance leases whenever the terms of the lease, transfers substantially all the risks and rewards of ownership to the lessee. All other leases are classified as operating leases.

As a Lessee

Leases in which significant portion of the risk and rewards of ownership are not transferred to the Company as lessee are classified as operating leases. Payment made under operating lease are charged to Statement of Profit and Loss on straight-line-basis over the period of the lease unless the payment are structured to increase in line with expected general inflation to compensate for the lessor's expected inflationary cost increase.

As a Lessor

Lease income from operating leases where the Company is a lessor is recognised in income on a straight-line basis over the lease term unless the receipts are structured to increase in line with expected general inflation to compensate for the excepted inflationary cost increases. The respective leased assets are included in the balance sheet based on their nature.

A leased asset is depreciated over the useful life of the asset. However, if there is no reasonable certainty that the Company will obtain ownership by the end of the lease term, the asset is depreciated over the shorter of the estimated useful life of the asset and the lease term.

e) **Inventories**

Consumables, stores and spares are valued at lower of cost computed on weighted average basis or net realisable value after providing cost of obsolescence if any. The cost of inventories comprises cost of purchase and other costs incurred in bringing the inventories to their present location and condition. Net realisable value is estimated selling price in ordinary course of business less the estimated cost necessary to make the sale.

f) **Segment Reporting**

Operating segments are reported in a manner consistent with the internal reporting provided to the chief decision maker. Based on the "management approach" as defined in Ind AS 108 – Operating Segments, the Chief Operating Decision Maker (CODM) evaluates the Company's performance and allocates resources based on an analysis of various performance indicators by business segments. Accordingly, information has been presented along with Business Segments.

g) **Borrowings**

Borrowing are initially recognized at net of transaction costs incurred and measured at amortised cost. Borrowings are classified as current liabilities unless the Company has an unconditional right to defer the settlement of the liability for at least 12 months after the reporting period.

Effective interest method

The effective interest method is a method of calculating the amortised cost of a debt instrument and of allocating interest expenses over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash payment (including all fees and points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the debt instrument, or, where appropriate, a shorter period, to the gross carrying amount on initial recognition.

h) Revenue Recognition

Revenue is measured at the value of the consideration received or receivable. The Company recognises revenue when the amount of revenue can be reliably measured, it is probable that future economic benefits will flow to the Company and specific criteria have been met for each of the Company's activities as described below.

i) Revenue from sale of services

Casino gaming revenues are all amounts wagered in casinos less amounts paid as winnings to players of casino games. Gaming revenue is recorded based on net gain/loss at the end of each day. The revenue recognised includes gaming related taxes and duties which the Company pays as a principal but excludes amount collected on behalf of third parties such as entry tax. Income from Slot Machines is accounted for on the basis of actual collection in each respective machine.

Revenue from sale of services is recognised as and when the services agreed are rendered, net of discount to the customers and amount collected on behalf of third parties such as service tax, luxury tax.

ii) Revenue from Sale of goods

Revenue from sales of goods is measured at the fair value of the consideration received or receivable excluding taxes or duties collected on behalf of the Government. Sale comprise sale of food and beverages relating to entertainment and hospitality operations.

iii) Dividend and interest income

Dividend income from investments is recognised when the shareholder's right to receive payment has been established (provided that it is probable that the economic benefits will flow to the Company and the amount of income can be measured reliably).

Interest income from a financial asset is recognised when it is probable that the economic benefits will flow to the company and the amount of income can be measured reliably. Interest income is accrued on a timely basis, by reference to the amortised cost and at the effective interest rate applicable, which is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to that asset's net carrying amount on initial recognition.

i) Employee Benefits

Short-term employee benefits

The undiscounted amount of short term employee benefits expected to be paid in exchange for the services rendered by employees are recognised as an expense during the period when the employees render the services.

Post-employment benefits

Defined benefit plan

The liability recognised in the balance sheet in respect of defined benefit gratuity plans is the present value of the defined benefit obligation at the end of the reporting period. The defined benefit obligation is calculated annually by actuaries using the projected unit credit method.

The present value of the defined benefit obligation is determined by discounting the estimated future cash outflows by reference to market yields at the end of the reporting period on government bonds that have terms approximating to the terms of the related obligation.

The net interest cost is calculated by applying the discount rate to the defined benefit obligation. This cost is included in employee benefit expense in the Statement of Profit and Loss.

Remeasurement gains and losses arising from experience adjustments and changes in actuarial assumptions are recognised in the period in which they occur, directly in other comprehensive income and is not reclassified to profit or loss. They are included in retained earnings in the statement of changes in equity and in the balance sheet. Defined benefit costs are categorised as follows:

- service cost (including current service cost, past service cost, as well as gains and losses on curtailments and settlements);
- net interest expense; and
- remeasurement

The company presents the first two components of defined benefit costs in profit or loss in the line item 'Employee benefits expense'. Curtailment gains and losses are accounted for as past service costs.

Defined Contribution Plan

Payments to defined contribution benefit plans are recognised as an expense in the Statement of Profit and Loss during the period in which employee renders related service.

j) **Foreign currency transactions**

Foreign currency transactions and balances

- i) Transactions denominated in foreign currencies are recorded at the exchange rate prevailing on the date of transaction. Monetary assets and liabilities denominated in foreign currencies at the year-end are restated at the closing rate of exchange prevailing on the reporting date.
- ii) Any exchange difference arising on account of settlement of foreign currency transactions and restatement of monetary assets and liabilities denominated in foreign currency is recognised in the Statement of Profit and Loss.
- iii) Non-monetary items that are measured in terms of historical cost in a foreign currency are recorded using the exchange rates at the date of the transaction. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was measured. The gain or loss arising on translation of non-monetary items measured at fair value is treated in line with the recognition of the gain or loss on the change in fair value of the item (i.e., translation differences on items whose fair value gain or loss is recognised in OCI or Statement of Profit and Loss are also recognised in OCI or Statement of Profit and Loss, respectively).

k) **Income Tax**

The tax expense for the period comprises current and deferred tax. Tax is recognised in Statement of Profit and Loss, except to the extent that it relates to items recognised in the comprehensive income or in equity. In which case, the tax is also recognised in other comprehensive income or equity.

Current Tax

Current tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities, based on tax rates and laws that are enacted or substantively enacted at the Balance sheet date.

Deferred Tax

Deferred tax is recognised on temporary differences arising between the tax bases of assets and liabilities used in the computation of taxable profit and their carrying amount in the financial statement. Deferred tax assets and liabilities are measured using tax rates (and laws) that have been enacted or substantially enacted by the end of the reporting period. The carrying amount of deferred tax liabilities and assets are reviewed at the end of each reporting period.

Deferred tax assets are recognised for all deductible temporary differences and unused tax losses, only if, it is probable that future taxable amounts will be available to utilise those temporary differences and losses

Deferred tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets and liabilities and when the deferred tax balances relate to the same taxation authority. Current tax assets and tax liabilities are off set where the Company has a legally enforceable right to offset and intends either to settle on a net basis, or to realize the asset and settle the liability simultaneously.

Minimum Alternate Tax (MAT)

Minimum Alternate Tax credit is recognised as deferred tax asset only when and to the extent there is convincing evidence that the Company will pay normal income tax during the specified period. Such asset is reviewed at each Balance Sheet date and the carrying amount of the MAT credit asset is written down to the extent there is no longer a convincing evidence to the effect that the Company will pay normal income tax during the specified period.

l) **Earnings Per Share**

Basic Earnings per Share

Basic earnings per share is calculated by dividing the profit attributable to owners of the company by the weighted average number of equity shares outstanding during the financial year. Earnings considered in ascertaining the Company's earnings per share is the net profit for the period.

Diluted earnings per share

For the purpose of calculating diluted earnings per share, the net profit or loss for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period is adjusted for the effects of all dilutive potential equity shares.

m) **Financial instruments**

A financial instrument is any contract that gives rise to a financial asset in one entity and a financial liability or equity instrument in another entity.

i) **Financial Assets**

A. **Initial recognition and measurement**

All financial assets and liabilities are initially recognized at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities, which are not at fair value through profit or loss, are adjusted to the fair value on initial recognition. Purchase and sale of financial assets are recognised using trade date accounting.

B. **Subsequent measurement**

a) **Financial assets carried at amortised cost (AC)**

A financial asset is measured at amortised cost if it is held within a business model whose objective is to hold the asset in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

b) **Financial assets at fair value through other comprehensive income (FVTOCI)**

A financial asset is measured at FVTOCI if it is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

c) **Financial assets at fair value through profit or loss (FVTPL)**

A financial asset which is not classified in any of the above categories are measured at FVTPL.

C **Other Equity Investments**

All other equity investments are measured at fair value, with value changes recognised in Statement of Profit and Loss, except for those equity investments for which the Company has elected to present the value changes in 'Other Comprehensive Income'.

D **Impairment of Financial Assets**

In accordance with Ind AS 109, the company applies the expected credit loss model for evaluating impairment of financial assets other than those measured at fair value through profit and loss (FVTPL).

Expected credit losses are measured through a loss allowance at an amount equal to:

The twelve months expected credit losses (expected credit losses that result from those default events on the financial instrument that are possible with 12 months after the reporting date); or

Full lifetime expected credit losses (expected credit losses that result from all possible default events over the life of the financial instrument)

For trade receivables Company applies 'simplified approach' which requires expected lifetime losses to be recognised from initial recognition of the receivables. The Company uses historical default rates to determine impairment loss on the portfolio of trade receivables. At every reporting date these historical default rates are reviewed and changes in the forward looking estimates are analysed.

For other assets, the Company uses 12 months ECL to provide for impairment loss where there is no significant increase in credit risk. If there is significant increase in credit risk full lifetime ECL is used.

ii) **Financial Liabilities**

Initial Recognition and measurement

All financial liabilities are recognised initially at fair value and, in the case of loans, net of directly attributable transaction costs.

Subsequent measurement

Financial liabilities at FVTPL

Financial liabilities at FVTPL include financial liabilities held for trading and financial liabilities designated upon initial recognition as FVTPL. Financial liabilities are classified as held for trading if they are incurred for the purpose of repurchasing in the near term. Gains or losses on liabilities held for trading are recognised in the Statement of Profit and Loss.

Financial guarantee contracts issued by the Company are those contracts that require a payment to be made to reimburse the holder for a loss it incurs because the specified debtor fails to make a payment when due in accordance with the terms of a debt instrument. Financial guarantee contracts are recognised initially as a liability at fair value, adjusted for transaction costs that are directly attributable to the issuance of the guarantee. Subsequently, the liability is measured at the higher of the amount of loss allowance determined as per impairment requirements of Ind AS 109 and the amount recognised less cumulative amortisation. Amortisation is recognised as finance income in the Statement of Profit and Loss.

For trade and other payables maturing within one year from the balance sheet date, the carrying amounts approximate fair value due to the short term maturity of these instruments.

Financial liabilities at amortised cost

After initial recognition, interest-bearing loans are subsequently measured at amortised cost using the effective interest rate method.

Where the terms of a financial liability is re-negotiated and the Company issues equity instruments to a creditor to extinguish all or part of the liability (debt for equity swap), a gain or loss is recognised in the Statement of Profit and Loss; measured as a difference between the carrying amount of the financial liability and the fair value of equity instrument issued.

Offsetting financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the balance sheet if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

n) **Significant management judgments in applying accounting policies and estimation uncertainty**

The estimates and judgments used in the preparation of the financial statements are continuously evaluated by the Company and are based on historical experience and various other assumptions and factors (including expectations of future events) that the Company believes to be reasonable under the existing circumstances. Difference between actual results and estimates are recognized in the period in which the results are known/ materialized.

The said estimates are based on the facts and events, that existed as at the reporting date, or that occurred after that date but provide additional evidence about conditions existing on the reporting date.

Impairment of non-financial assets

Assessment is done at each Balance Sheet date to evaluate whether there is any indication that a non-financial asset may be impaired. If any indication exists, the Company estimates the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's or Cash Generating Units (CGU's) fair value less costs of disposal and its value in use. It is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or a groups of assets. Where the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

In assessing value in use, the estimated future cash flows are discounted to their present value using pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining fair value less costs of disposal, recent market transactions are taken into account, if no such transactions can be identified, an appropriate valuation model is used.

Depreciation / amortisation and useful lives of property, plant and equipment / intangible assets

Property, plant and equipment are depreciated over the estimated useful lives of the assets, after taking into account their estimated residual value. Management reviews the estimated useful lives and residual values of the assets annually in order to determine the amount of depreciation to be recorded during any reporting period. The useful lives and residual values are based on the Company's historical experience with similar assets and take into account anticipated technological changes. The depreciation for future periods is adjusted if there are significant changes from previous estimates.

Recoverability of trade receivable

Judgments are required in assessing the recoverability of overdue trade receivables and determining whether a provision against those receivables is required. Factors considered include the credit rating of the counterparty, the amount and timing of anticipated future payments and any possible actions that can be taken to mitigate the risk of non-payment.

Provisions and Contingent Liabilities

Provisions are recognised when the Company has a present legal or constructive obligation as a result of past events, it is probable that an outflow of resources will be required to settle the obligation and the amount can be reliably estimated.

If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost.

Contingent Liabilities are disclosed in respect of possible obligations that arise from past events but their existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company or where any present obligation cannot be measured in terms of future outflow of resources or where a reliable estimate of the obligation cannot be made.

Impairment of financial assets

The impairment provisions for financial assets are based on assumptions about risk of default and expected cash loss rates. The Company uses judgement in making these assumptions and selecting the inputs to the impairment calculation, based on Company's past history, existing market conditions as well as forward looking estimates at the end of each reporting period.

Defined benefit obligation (DBO)

Management's estimate of the DBO is based on a number of critical underlying assumptions such as standard rates of inflation, mortality, discount rate and anticipation of future salary increases. Variation in these assumptions may significantly impact the DBO amount and the annual defined benefit expenses.

Fair value measurement

Management uses valuation techniques to determine the fair value of financial instruments (where active market quotes are not available) and non-financial assets. This involves developing estimates and assumptions consistent with how market participants would price the instrument. Management bases its assumptions on observable data as far as possible but this is not always available. In that case management uses the best information available. Estimated fair values may vary from the actual prices that would be achieved in an arm's length transaction at the reporting date.

b) Terms/Rights Attached to Equity Shares

The Company has only one class of equity shares having a par value of Rs.10/- per share. Each holder of equity shares is entitled to one vote per share. The Company declares and pays dividend in Indian Rupees. The dividend proposed by the Board of Directors is subject to the approval of the shareholders in the ensuing Annual General Meeting. In the event of liquidation of the Company, the holders of equity shares will be entitled to receive remaining assets of the Company. The distribution will be in proportion to the number of equity shares held by the shareholders.

<p>The Company has obtained licenses under the Export Promotion Credit Guarantee ('EPCG') Scheme for importing capital goods at a concessional rate of custom duty against submission of bank guarantee and bonds.</p> <p>Under the terms of the respective schemes, the Company is required to earn foreign exchange value equivalent to, eight times and in certain cases six times of the duty saved in respect of licenses where export obligation has been fixed by the order of the Director General Foreign Trade, Ministry of Finance, as applicable within a specified period from the date of import of capital goods. The Export Promotion Capital Goods Schemes, Foreign Trade Policy 2015-20 as issued by the Central Government of India, covers both manufacturer's exports and service providers. Accordingly, in accordance with the Chapter 5 of Foreign Trade Policy 2015-2020, the Company is required to export goods of FOB value of Rs.107.37 Lakhs (Previous Year : Rs. 121.24 Lakhs). Non fulfilment of the balance of such future obligation, if any entails to the Government to recover full duty saved amount and other penalties under the above referred scheme.</p>			

Delta Pleasure Cruise Company Private Limited
Notes to Financial Statements for the Year Ended March 31, 2018

30 Employee Benefits :

Brief description of the Plans:

The Company has various schemes for employee benefits such as Provident Fund, ESIC, Gratuity and Leave Encashment. The Company's defined contribution plans are Provident Fund (in case of certain employees) and Employees State Insurance Fund (under the provisions of the Employees' Provident Funds and Miscellaneous Provisions Act, 1952). The Company has no further obligation beyond making the contributions to such plans.

A Defined Benefits Plans

The Company's defined benefit plans include Gratuity (Unfunded). The gratuity plan is governed by the Payment of Gratuity Act, 1972 under which an employee who has completed five years of service is entitled to specific benefits. The level of benefits provided depends on the member's length of service and salary at retirement age.

I. Principal actuarial assumptions used:

Particulars	2017-18	2016-17
Discount Rate (per annum)	7.65%	6.81%
Salary escalation rate	7.00%	7.00%
Rate of Employee Turnover	15.00%	15.00%
Mortality Rate During Employment	Indian Assured Lives Mortality (2006-08) Ultimate	Indian Assured Lives Mortality (2006-08) Ultimate
Expected Rate of return on Plan Assets (per annum)	NA	NA

II. Expenses Recognised in Statement of Profit and Loss

Particulars	(Rs. in Lakhs)	
	2017-18	2016-17
Current Service Cost	1.67	0.06
Net Interest Cost	0.60	0.01
Total Expenses / (Income) recognised in the Statement of Profit And Loss	2.27	0.07

The current service cost and the net interest expenses for the year are included in the 'Employee benefits expenses' line item in the statement of profit & loss account.

III. Expenses Recognized in the Other Comprehensive Income (OCI) for Current Period

Particulars	(Rs. in Lakhs)	
	2017-18	2016-17
Actuarial (Gains)/Losses on Obligation For the Period - Due to changes in financial assumptions	(0.40)	0.41
Actuarial (Gains)/Losses on Obligation For the Period - Due to experience	0.25	0.05
Net (Income)/Expense For the Period Recognized in OCI	(0.16)	0.45

The remeasurement of the net defined benefit liability is included in other comprehensive income.

IV. Movements in the Present Value of Defined Benefit Obligation are as follows:

Particulars	(Rs. in Lakhs)	
	2017-18	2016-17
Opening Net Liability	8.75	0.07
Current Service Cost	1.67	0.06
Net Interest Cost	0.60	0.01
Actuarial (Gains)/Losses on Obligation For the Period - Due to changes in financial assumptions	(0.40)	0.41
Actuarial (Gains)/Losses on Obligation For the Period - Due to experience	0.25	0.05
Net Liability/(Asset) Transfer In	-	8.48
Net (Liability)/Asset Transfer Out	(0.15)	(0.16)
(Benefit Paid Directly by the Employer)	(1.98)	(0.16)
Net Liability/(Asset) Recognized in the Balance Sheet	8.74	8.75

Delta Pleasure Cruise Company Private Limited
Notes to Financial Statements for the Year Ended March 31, 2018

V. Amount Recognised in the Balance Sheet

Particulars	(Rs. in Lakhs)	
	2017-18	2016-17
Present Value of Defined Benefit Obligation as at the end of the year	8.74	8.75
Fair Value of Plan Assets as at end of the year	-	-
Net Liability/(Asset) recognised in the Balance Sheet	8.74	8.75

VI. Maturity Analysis of Projected Benefit Payments : From the Employer

Projected Benefits Payable in Future Years From the Date of Reporting	(Rs. in Lakhs)	
	2017-18	2016-17
1st Following Year	1.08	1.15
2nd Following Year	1.11	1.07
3rd Following Year	1.10	1.06
4th Following Year	1.07	1.03
5th Following Year	1.01	0.95
Sum of Years 6 To 10	3.84	3.58
Sum of Years 11 and above	5.37	-

The Plan typically to expose the Company to actuarial risk such as Interest Risk, Longevity Risk and Salary Risk

- a) Interest Risk:- A decrease in the bond interest rate will increase the plan liability.
- b) Longevity Risk: The present value of the defined benefit plan liability is calculated by reference to the best estimate of the mortality of plan participants both during and after their employment. An increase in the life expectancy of the plan participants will increase the plan's liability.
- c) Salary Risk: The present value of the defined plan liability is calculated by reference to the future salaries of plan participants. As such, an increase in the salary of the plan's participants will increase the plan's liability.

VII. Sensitivity Analysis

Particulars	(Rs. in Lakhs)	
	2017-18	2016-17
Projected Benefit Obligation on Current Assumptions	8.74	8.75
Delta Effect of +1% Change in Rate of Discounting	(0.43)	(0.44)
Delta Effect of -1% Change in Rate of Discounting	0.48	0.50
Delta Effect of +1% Change in Rate of Salary Increase	0.48	0.49
Delta Effect of -1% Change in Rate of Salary Increase	(0.44)	(0.45)
Delta Effect of +1% Change in Rate of Employee Turnover	(0.02)	(0.05)
Delta Effect of -1% Change in Rate of Employee Turnover	0.02	0.05

The above sensitivity analyses are based on change in an assumption while holding all other assumptions constant. In practice, this is unlikely to occur, and changes in some of the assumptions may be correlated. When calculating the sensitivity of the defined benefit obligation to significant actuarial assumptions the same method (present value of the defined benefit obligation calculated with the projected unit credit method at the end of the reporting period) has been applied as when calculating the defined benefit liability recognised in the balance sheet.

The estimates of future salary increases, considered in actuarial valuation, take account of inflation, seniority, promotion and other relevant factors, such as supply and demand in the employment market.

IX. Defined Contribution Plans

The Company also has certain defined contribution plans. The contributions are made to registered provident fund, Employee State Insurance Corporation and Labour Welfare Fund administered by the government. The obligation of the Company is limited to the amount contributed and it has no further contractual nor any constructive obligation. The expense recognised during the period towards defined contribution plans are as follows:

B. Charge to the Statement of Profit and Loss based on contributions:

Particulars	(Rs. in Lakhs)	
	2017-18	2016-17
Employer's contribution to Regional Provident Fund Office	8.64	5.18
Employer's contribution to Employees' State Insurance	4.99	2.38
Employer's contribution to Labour Welfare Fund	0.29	0.20

C. Leave obligations

The leave obligations cover the Company's liability for earned leave.

The amount of the provision of Rs. 5.90 Lakhs (31st March, 2017 Rs. 0.82 Lakhs,) is presented as current, since the Company does not have an unconditional right to defer settlement for any of these obligations.

Particulars	(Rs. in Lakhs)	
	2017-18	2016-17
Current Service Cost	5.36	1.05
Total Expenses / (Income) recognised in the Statement of Profit And Loss	5.36	1.05

Delta Pleasure Cruise Company Private Limited
Notes to the Financial Statements for the Year Ended 31st March, 2018

32 Earning Per Shares

Earnings Per Share – EPS is calculated by dividing the profit attributable to the equity shareholders by the weighted average number of equity shares outstanding during the year. Numbers used for calculating basic and diluted earnings per equity share are as stated below:

Particulars	Year Ended	
	31st March, 2018	31st March, 2017
Profit/(Loss) after tax (Rs. in Lakhs)	1,974.41	990.59
Weighted Average Number of Equity Shares used as Denominator for Calculating Basic Earnings per share (nos.)	4,350,000	4,350,000
Weighted Average Number of Equity Shares used as Denominator for Calculating Diluted Earnings per share (nos.)	4,350,000	4,350,000
Earnings Per Share - Basic (Rs.)	45.39	22.77
Earnings Per Share - Diluted (Rs.)	45.39	22.77
Face value per share (Rs.)	10.00	10.00

33 Credit Risk

Credit risk arises from the possibility that the counter party may not be able to settle their obligations as agreed. To manage this, the Company periodically assesses financial reliability of customers and other counter parties, taking into account the financial condition, current economic trends, and analysis of historical bad debts and ageing of financial assets. Individual risk limits are set and periodically reviewed on the basis of such information.

The Company considers the probability of default upon initial recognition of asset and whether there has been a significant increase in credit risk on an ongoing basis through each reporting period. To assess whether there is a significant increase in credit risk the Company compares the risk of default occurring on asset as at the reporting date with the risk of default as at the date of initial recognition. It considers reasonable and supportive forwarding-looking information such as:

- i) Actual or expected significant adverse changes in business,
- ii) Actual or expected significant changes in the operating results of the counterparty,
- iii) Financial or economic conditions that are expected to cause a significant change to the counterparty's ability to meet its obligations,

The Company measures the expected credit loss of trade receivables and loan from individual customers based on historical trend, industry practices and the business environment in which the entity operates. Loss rates are based on actual credit loss experience and past trends. Based on the historical data, loss on collection of receivable is not material hence no additional provision considered.

Trade receivables:

The ageing of trade receivables and expected credit loss analysis on these trade receivables is given in below table:

Particulars	(Rs. in Lakhs)				
	0-60 days	61-180 days	181-365 days	above 365 days	Total
As at 31 March 2018	33.20	-	-	-	33.20
As at 31 March 2017	22.60	-	-	-	22.60

34 Capital Risk Management

- a) The Company manages its capital to ensure that it will be able to continue as going concern while maximising the return to stakeholders through the optimisation of the debt and equity balance. The capital structure of the Company consists of net debt (borrowings as detailed in notes 14, 15 and 18 offset by cash and bank balances) and total equity of the Company.
 The Company determines the amount of capital required on the basis of annual as well as long term operating plans and other strategic investment plans. The funding requirements are met through long-term and short-term borrowings. The Company monitors the capital structure on the basis of total debt to equity ratio and maturity profile of the overall debt portfolio of the Company.

		(Rs. in Lakhs)	
The capital components of the Company are as given below:			
	March 31, 2018	March 31, 2017	
Total Equity	(120.29)	(2,096.24)	
Short Term Borrowings	3,055.87	4,549.87	
Long Term Borrowings	2.78	7.22

Debt Equity ratio	(16.34)	(2.10)	

35 Liquidity Risk

Prudent liquidity risk management implies maintaining sufficient cash and marketable securities and the availability of funding through an adequate amount of committed credit facilities to meet obligations when due and to close out market positions. Due to the dynamic nature of the underlying businesses, Company treasury maintains flexibility in funding by maintaining availability under committed credit lines. Management monitors rolling forecasts of the Company's liquidity position (comprising the undrawn borrowing facilities below) and cash and cash equivalents on the basis of expected cash flows.

				(Rs. in Lakhs)

Trade Payables	23.66	-		-		
Other Financial Liabilities	52.22	-		-		
	4,629.79	7.22		-		

36 Interest Rate Risk & Sensitivity Analysis

Interest rate risk is the risk that the fair value of future cash flows of the financial instruments will fluctuate because of changes in market interest rates. In order to optimize the Group's position with regards to interest income and interest expenses and to manage the interest rate risk, treasury performs a comprehensive corporate interest rate risk management by balancing the proportion of fixed rate and floating rate financial instruments in its total portfolio.

The sensitivity analyses below have been determined based on the exposure to interest rates for assets and liabilities at the end of the reporting period. For floating rate assets and liabilities, the analysis is prepared assuming the amount of the liability outstanding at the end of the reporting period was outstanding for the whole year and the rates are reset as per the applicable reset dates. The basis risk between various benchmarks used to reset the floating rate assets and liabilities has been considered to be insignificant.

If interest rates had been 100 basis points higher/lower and all other variables were held constant, the Company's Profit for the year would decrease/increase by amount as stated below. This is mainly attributable to the Company's exposure to borrowings at floating interest rates.

Particulars	Financial Liabilities (In Lakhs)	Change in Interest rate	(Rs. in Lakhs)	
			Impact on Profit or Loss before tax for the year (In Lakhs) Increase by 1%	Impact on Profit or Loss before tax for the year (In Lakhs) decrease by 1%
As at 31 March 2018	-	1%	-	-
As at 31 March 2017	800.00	1%	8.00	(8.00)

37 Based on the "Management Approach" as defined in Ind AS 108 - Operating Segments, the Chief Operating Decision Maker (CODM) evaluates the Company's performance and allocates resources based on an analysis of various performance indicators of business, the segments in which the Company operates. The Company is primarily engaged in the business of gaming which the Management and CODM recognise as the sole business segment. Hence disclosure of segment-wise information is not required and accordingly not provided.

38 MAT Credit Entitlement of Rs.530.93 Lakhs (Previous Year Nil) is based on future business projections of Company as projected by Management, and the same have been relied upon by the auditors.

Delta Pleasure Cruise Company Private Limited
Notes to the Financial Statements for the Year Ended 31st March, 2018

39 Income taxes relating to continuing operations

	(Rs.in Lakhs)	
	March 31, 2018	March 31, 2017
a) Income tax recognised in profit or loss
